Thread: [Milking and maximizing profits?](#)

What are the best ways to milk the customers out of the most money, and what's the best way to maximize your profits, to keep them sending you money?

also does anyone wanna share their price list or for their services, how much do you charge your customers.

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

Offer more than one thing and offer different "packages".

Ideally you want to start them off small and build up like a snowball rolling downhill. Maybe you start them off with a small sale just to establish trust. But it should be enough to get them hungry enough for more. You wait a few days and offer them something else. Then you keep repeating the cycle. Once you run out of products to offer, then you move on to services. Done the right way, you can keep milking them every 4 days to a week.

Always double dip them. Edit payment photos to become failed, then tell them it failed and to re-send. Be creative.
