xmr is not worth, ETH is the most profitable coin to mine

jmark7 - March 5, 2022, 1:47 pm

Go with Dual Mining. Will Generate the max profit.

ETH + ETC + XMR / TRM

Good luck brother. ??

Well said

You Can Find Many Miners in Premium Tools Section.

[Premium Tools and Programs](#)

ETH and ETC depending on their vram, use unams free miner and panel off GitHub if your going to be dropping it from a rat or loader + don't wanna spend \$100

Otherwise get pure miner for \$100 which can also server as a rat/loader with live connections
