Thread: [ALPHA SPOTIFY - UNLIMITED \\$25 AMAZON GIFT CARDS WITH SPOTIFY](#)

Hey beautiful

How are you?

Nice

Anyways there's this research company giving out \$25 Amazon Gift cards to people willing to share their Spotify account info (5 mins) + take a personality test (20 mins) so that it can help them market better or something.

It was an ad on Facebook I saw and decided to give it a shot, and two days later...

Interested now? Cool

Make sure you meet these requirements so you don't waste your time

YOU HAVE TO BE 18+ AND FROM THE USA IF YOU'RE OUTSIDE USA USE VPN

My friend got it done with ProtonVPN if that helps

—

1) Have a Spotify account with EMAIL ACCESS (they send gift card to primary email on Spotify account)

2) Be willing to take the personality test seriously and not put random answers and rush through everything. The 20 mins will go by so fast it's not even that boring. They will deny you the reward if they see BS

I don't know how long this will last so if they stop the research thing then I'll take this post down

UPDATE: This works worldwide and is repeatable

DM me or request below and I'll hook you up

It's repeatable if you have another Spotify account with email access + fresh IP
