Thread: [Nicehash mining](#)

Crypton00b - March 8, 2022, 7:07 am

Hey all,

Can you please advise if it would be worth investing a few K to nicehash mining? ETH I reckon? Or w/e is worth the most?

How does the process work?

All advises are more than welcome.

Goodguydave - May 16, 2023, 1:14 am

Go with the solo mining for now it worth it.

I use NiceHash, you just create an account and connect your rigs to your stratum (I don't if its similar for Script based tokens)

The platform is pretty cool but the app is a little buggy, you can basically sell your hash to people that are willing to pay a premium for it, I mine about 5-10% more BTC using nicehash.

Goodluck ?

GruntStyl - May 16, 2023, 7:38 pm

Forgot about NiceHash. I used it many years ago. I actually didn't even think it was still a thing. I thought something had happened to the developers or company.

Went downhill ever since they got hacked and lost peoples funds. That was back in 2017-2018, anyways PoW is really not a thing talked about really any more. Most people cant afford to mine or have the infrastructure. Cant talk about something thats not accessible.
