I don't get it, literally states "Free Crypto Trading Bot" then states \$14.99.

The bot is free to use-

Its \$14.99 for a detailed PDF and full support for the onboarding process (the strategies I use)

However I am providing 3 vouch copies.

I received the vouch copy, it looks very promising. I've yet to actually try it but I'm pretty sure it will make me some profit if I use it as OP has stated. I'd give it 8/10 based on my understanding of the product. I'll update the thread later with screenshots and proof once I make good profits.
