Thread: [WEBSITE SECURITY HALL OF FAMES | GOOD FOR RESUME | CYBERSECURITY | \\$30 EACH](#)

aXiosMort - March 10, 2022, 1:36 pm

I am selling cybersecurity hall of fame positions on numerous websites, it comes in the form of public acknowledgement.

AVAILABLE:

Microsoft

CERT-EU (European Union)

Charles University

Duke University

Houzz

After purchase, you will receive the full e-mail chain that was used to disclosure the vulnerability along with an explanation of the vulnerability so you can explain it to future employers. This is pretty much just for bragging rights and can help you secure an employment or internship position in computer science / cybersecurity. The entry will be changed with your credentials (name / social media profile / website).

\$30 is a stupidly low price for this, you will not find this price anywhere, most people will not even sell their position. They are useless to me because I am already listed on these websites under different credentials and I just want to get rid of them. I will sell all of them excluding Microsoft for \$75. The price will be going up in the future!

I will be adding more in the future.

Are you willing to go first or use a middleman?

Yes, I am more than content with using a middleman.

Sweet, I just used the last of my funds on something else but I'll check back in next week. If it's still available I'll grab all of them.

shakur123 - March 11, 2022, 8:18 pm

TOS of this? are you going first? what kind of payment do you accept?

7 - March 12, 2022, 12:26 am

Seeing as your a new seller and this price is very reasonable
I will not ask for a vouch copy but I would ask you to go first.

30\$ is not worth risking my reputation on HF so if you deliver I will 100% deliver the funds..
Im assuming crypto is form of payment. I wish for Microsoft.

Ill initiate a contract and if you agree to the above terms then accept the contract and it can be a semi-vouch... but like I said ill pay on delivery

Infact ill buy them all if you deliver ill pay... I think thats fair enough

dragonfireys - March 12, 2022, 1:01 am

Microsoft one has been sold already, all the rest are available if you want to purchase different ones? More than happy to go first with you (using a contract). The delivery will most like take several days because your credentials have to be added by the relevant CERT team, please confirm whether you're happy with a wait.

OP came through as promised. Great overall experience. He communicates in a professional and timely manner and doesn't leave you out of the loop. Wouldn't hesitate to do future business with him :)

EDIT: I should also note that I was late on payment because I got 24 hour mute and couldn't reach him. All has been sorted since then.

Thanks for confirming that I have delivered to you in the past man.

Note to everyone else: nobody has been scammed, but as explained before contracts are opened, it takes time because relevant security teams have to manually update the publication, and more than often there is a queue.

OP was online two hours ago and didn't bother responding to my message. I'll give him a few more hours before I open a DD. I'd stay clear of doing any deals with him until then imo.
