How it works - <https://streamable.com/kdbbm4>

You can set a delay between every message and also between every loop from all the groups, you can edit the group list and the message while the tool is running!
It's safe your telegram cannot get banned if you use reasonable delays

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
