Thread: [WTS €100 AMAZON.DE GIFTCARD CODE FOR \\$50 IN CRYPTOCURRENCY](#)

aXiosMort - March 16, 2022, 3:29 pm

I have a €100 Amazon.de giftcard that was donated to me by a website owner as a bug bounty reward (I can prove this) however it is useless to me because shipping times are insane to my country and there's nothing on Amazon that I want. I am prepared to use escrow for this transaction.

Why don't you try on Purse? You will earn much more.

You need to buy items in the buyer's wishlist, and you get credited in crypto.
