[SS Ace - Click to purchase](#)

The number one Spotify desktop bot. Join our Discord [here](#).

[How do I make money using this?](#) Start by uploading songs to Spotify. These can be your own, copyright free content, or someone else's. You can do so by using a distributor. I would personally recommend you to use Too Lost.

Once your songs are online and good to go. You will need two more things. Proxies and a PC or server to use the bot on. A server would be ideal since it would allow the bot to run 24/7, which will make you the most profit and least hassle.

Proxies recommendations will be made to you once you become a customer. We will help you sort this out.

Now you will use our bot to generate fake streams on your songs. These streams will be deemed as real by Spotify themselves, and within 3 months you will be paid out. Enjoy your passive income :).

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
