I've been using this for about 8 days now, 6 of which with the automation script. In these days, my on-platform wallet has gained 35.71% in assets. Now it truly feels as if Crypto is "magical internet money", though it's just a clever way of trading made easy. See below for statistics I keep track of.

Again a big-up for this program and for Louis!

(Mar 24, 2022 01:24 PM)Aman Wrote: [\[CITE\]](#) Imagine a system running on crypto where we don't get to see long and short trades, is doing just great! Phenomenal performance of arbitrage deals. Fetching about 3% to 3.4% a day.

I've started with a very small amount (\$99) which is now about \$118 in 5 days

By this week I'll be adding some more funds and will let it compound so that I could withdraw my initial investment and let the profit compound and generate funds. Give it a shot guys?

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,

Yes guys, this is amazing, this is the way we can earn passive income from crypto without fear of liquidation or any other tension, Thank you Louise to bring this to the community. No where we can get this much percentage profit per day (More than 3%/day).

I am really enjoying this from past few days. ? [warn]

Looks like your warning level is going to sky rocket :)
im not trashing, im trying to warn other users before they invest money in something like that.
u didnt told me why the website looks like a fucking scam? And i think a company that are MSB licensed would have the time to put 2022 in the footer instead of 2021? This is a classic sign of a scam.

Thanks for the -3! Haha

edit: this isnt even free, and it has a refferal, why is it in this section?
how do i report this stupid shit someone please tell me

(Apr 2, 2022 09:47 AM)Louisn8 Wrote: [\[CITE\]](#) How does the website look like a scam? They have just updated their GUI and have instant withdrawals. Does that sound like a scam to you?

If the copyright of 2021 is bugging you so much, contact them-they have an excellent support team.

Please post trash elsewhere- I am not sure if you are too familiar with HF but members wouldn't vouch for the method if it was a 'scam' or share their earnings.

Thanks.

most of your vouches are from users that have very few posts dude lol.....

dude the website looks awful, ive seen a lot of this "crypto investemnts" websites, it looks exactly like the other scams.

why does it have both .com and .net domains ?

Ah okay- so it looks like a scam but you haven't tried it? Having two separate domains doesn't warrant a scam, christ lol.

Would be great to see you now back track once you start earning and withdrawing :)

I agree the website GUI, grammar etc could be improved but the earnings are there for everyone to see.

Enjoy the rest of your weekend (or at least try to).

whats the minimum withdrawal?

Good thing to note: Holding 10\$ for 5 years with a 3% interest rate, will equal to 787,202,798,861,943,808\$?

Also most of these "vouches" are new accounts that only posted on this thread.

Its up to 3.4%-with compounding over 5 years that would be correct... however I would certainly not guarantee this rate of compounding, its completely unrealistic :)

Two of the vouches are from new accounts, there are a couple from very reputable members too (aged accounts.)

I am waiting on 3 members to leave a review-there in the trial phase and haven't withdrawn yet.

Vouching without Contracts is a violation of site policy.

This thread is closed due to excessive vouches without Contracts and [Louisn8](#) seems to encourage it.

No HF Contract = No Vouching

Also, if this is a HYIP, it will be Junked and [Louisn8](#) closed.
