Thread: [\[MENTORSHIP\] 1 ON 1 DROPSHIPPING MENTORSHIP - \\$10M+ GENERATED](#)

Manolo - March 21, 2022, 6:07 pm

My partner and I have generated over \$10,000,000 in revenue in just 2 years with dropshipping.

PROOF:

Spoiler ([Click to View](#))

In October of 2019, we both joined a dropshipping mentorship that completely changed our lives. We went from complete beginners to making over 7 figures in just a few months, eventually surpassing our mentor. I am telling you this not to brag but to let you know that we have the experience and proof to back up our claims and the ability to teach you the exact same.

We are limiting our mentorship to 3-5 people per month, as we want to make sure we dedicate enough time to each of our students. We were lucky to be one of the first to join the mentorship back in 2019. Eventually, our mentor took a bit more students than he could handle, and the mentorship ended up not being efficient as it once was. We want to avoid this at all costs.

Now you might wonder why we would be offering this service if we have made over 8 figures in this business? Well, here's a couple of reasons:

Believe it or not, we want to provide the same opportunity that was given to us and potentially change lives.

No matter how much money we make, we'll always want more, so extra income for us to teach people what we know best is a no-brainer.

We want to build a community of e-commerce entrepreneurs that will potentially surpass our success and use those skills to build brands that can exit for 7-8 figures.

What are you going to learn in this mentorship?

Our criteria on how to easily identify winning products

Setup a high-converting Shopify store

Create high-performing creatives over a plethora of platforms.

Advertising strategies to test and scale products

How to correctly read data/analytics and use it to correctly optimize your store

Pricing

We're charging \$1450 for our first 5 students, and we will then increase the price to \$1850. Price will incrementally increase to protect and maintain the quality of the group.

This price is nothing compared to the value and knowledge you will get from this mentorship. Some of you prefer spending this amount of money on a new iPhone or a vacation, and some of you will spend it on bettering your lives and potentially making enough money to change your entire family's life.

FAQ

How much money do I need to get started?

We recommend having at least \$500 put away to test products, we will teach you how to test/validate products with a small budget.

How long will it take to be profitable?

This is entirely up to you and the effort that you put in. This is not a get-rich-quick scheme, you need to put in the work and commit to this. You will be building an actual business, this is not a "passive income" method. You will actively be working on this and improving your store/brand. Once you get the hang of it, it can be semi-autopilot once you start hiring, but you will need to grind at first.

Do I need to have prior experience with e-commerce and advertising?

No, this mentorship suits anyone that wants to get into eCommerce, whether they have never heard of an ad before or have successfully ran ads before.

NOTE: I've noticed that a few people here are selling "done-for-you dropshipping stores" I can tell you that it's complete BS. They are just selling the same template/products to each person and claiming that those are "winning products" they are also showing fake results by creating draft orders on Shopify, making it seem like they made "thousands" daily when those are not real orders. We have no problem getting on a call with any of you and showing our numbers live.

If you're interested or have any questions feel free to PM me.

Do you guys offer any vouch copies?

If you don't, are you willing to use a MM for that?

Looks promising but it's hard to find real deals on this forum anymore.

This is a 1 on 1 mentorship, so not sure how using a middleman would be efficient. Especially since your success would be solely dependent on you and the effort that you put in.

In regards to vouch copies, we prefer not doing that as this is time-consuming for us and requires a lot of effort, so we want to make sure that our time is exclusively used for our paid students.

Middleman can release the funds after certain time and or after certain amount of profits achieved through your mentorship

So if the student decides to not put in the effort after we've invested our time into helping them, he gets a refund?

Honestly, we wouldn't take anybody that is asking for a middleman in the first place, because that alone shows that their mindset is not where it needs to be to achieve any sort of results.

Well I'm not sure for how long you've been active on this forum but threads like this pop up every day and 99% of them end up the same way as the previous ones (quick search and you will see what I'm talking about).

Asking for MM has nothing to do with what you've wrote, people are just looking to deal as safe as possible over here and I completely respect that you aren't willing to use MM due to your own reasons.

ShopifyExpert - March 21, 2022, 7:57 pm

I as well have generated 7-Figures through personal branded D2C stores on Shopify.

I would love to review this service and give a professional opinion, if that's a possibility.

Vitaly - March 21, 2022, 8:11 pm

I was apart of the previous mentorship group with both mentors and have seen first hand the profits they pull in and had them mentor me.

I quickly scaled a store to high 6 figures in just a few months, excited to see what the new mentorship and strategies do.

raregod - March 21, 2022, 8:17 pm

So your students of mvmt. When you started dropshipping that was before the ios14 update can you show earnings from 2021/2022?

How hard did it hit your DS business after the ios14 update

Appreciate it brother!

Yes, we've done 7 figures post iOS 14. This was mostly just about adapting and optimizing back-end sales, which most dropshipping stores did not have set up in place. We will also go over this in the mentorship.

We're happy to show anybody results past April 26 of 2021, which was when iOS 14.5 was released.

Yeah, unfortunately that mentorship got way too crowded and they took more students than they could handle at the end.

Are you still actively dropshipping to this day or is the mentorship a result of phasing out of the business?

I run an actual brand with stock in the United States since I am now focused on building businesses to sell in 1-2 years. This brand started off as a dropshipping store in the summer and then I branded it and did custom packaging, It has done over \$700k in revenue since last August. (I haven't scaled this to over 7 figures yet because I only ship from the US, so I sell according to the stock that I have left - this is important for brand valuation and customer retention)

I am also launching another brand in early April as well (semi-custom product) I will show this to my students so they also get the hang of creating brands from start to finish and see how to potentially exit for a great lumpsum.

I am not too focused on dropshipping myself because it's not ideal for the long term, it's good to start dropshipping to get some capital/cash flow and build the necessary skills to transition to long-term brands that can be sustainable for many years.

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

I'd let Shopify Expert review it , and if you are inside the US anyone that picks up at a US mentorship instead of remote can do it in person. That's what I'd suggest.

The hardest part of a successful drop ship/branding store is finding and researching the right product and continuing the work with a supplier that can keep your profit margin afloat regardless of material and marketing costs that will come along the way.

What exactly are you suggesting that he reviews? It's a mentorship. Also not sure what you're referring to as far as doing the mentorship in person.

Product is important, but it's not just that, it's a combination of proper branding + right marketing angles + optimized backend sales to increase average order value. As far as suppliers, we work with a few that provide fast shipping from China using USPS lines and competitive prices, we will recommend the ones that we use to our students.

He could review your previous stores, contracts, etc. Anything that you have to make you even

seem credible, and to do it in person also changes the whole structure and way someone perceives you. If I did it, it'd be in person, I'd rent a place for a week and do everything locally. Best way to do it. You're on the internet, you could impersonate anyone. Also, the fact that you didn't understand that kind of boggles my mind, and also I wouldn't be offering that on the forums that would be through other funnels. But I won't say anymore since it's not worth my time.

I'd be happy to show my paid supplier invoices (Exceeds \$1.2m on Veem) and my dashboards on a call.

And lol are you suggesting that we have an in-person mentorship? How exactly would that work, me bringing strangers into my home, or meeting them at a public Starbucks? Haha. I am teaching people an online skill, therefore it can be taught online, just how I was taught. I am not teaching people how to build houses or change a car's transmission, why would it need to be in person?

Please save your slick comments for someone else, I literally said that I will show proof to anyone on a call.

I think this is all cool, but what is the purpose of selling this mentorship for ~\$2k? Why not provide value on twitter and grow your audience on there and monetize other more profitable ways? Just weird, trying to understand your angle for providing this service.

I understand your point, but it was scrolling through these forums that I found the mentorship that allowed me to change my life, not on Twitter. I am hoping to provide the same value that was provided to me here.

This service looks interesting. Based on the proof you've shown I don't see why people wouldn't sign up for this but I'll wait to see a review of a HF student. I'm currently getting a shopify store built so I'll post here to come back later

qq6123783 - April 13, 2022, 7:17 am

Joined the mentorship about a week ago, thought it was a fitting time to provide an initial update.

Spent the past week mostly doing product research and coming up with a brand name.

Starting to build out the store and ads will most likely come soon.

So far responses and assistance has been near instant, Manolo and his partner are usually online 12+ hours a day so timezones shouldn't be too big of a concern regardless of where in the world you are (I work on this usually between 3PM-3AM CEST with no problems)

While this maybe wasn't the most interesting update in the world I'm sure good stuff is to come and I'll keep everybody updated

raregod - July 17, 2022, 8:58 am
