How will the proof be?

Will you just generate some files at the end of the sent messages, or will we have access to a live stream or something to gain confidence in your product?

Cuz if you choose option 1, then you could easily just put in fake info, without actually having sent the messages.

(Not trying to trash, just curious about the service).

Can this work with any niche?

(Not trying to trash, just curious about the service).Obviously I won't be streaming while doing it. I provide logs of all the DMs sent when complete. I can also send screenshots from the software.

Will you be the one scraping Usernames or do I have to do it? Is it possible to do a mass DM to all clients that are in my own group?

Bvok - April 4, 2022, 9:47 am

How do you pick the profiles ?

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

Does this work for Facebook as well, or is it limited to those listed?
