Thread: [Pixel art logo](#)

iritun - March 23, 2022, 7:52 pm

Hi.

I need a logo in the similar style of this:

Can anyone here do that? Must be pixel art.

I'm talking same style and very similar premise to the above image.

If you can do that, please let me know your rate.

Able to pay in PayPal, Venmo, or crypto.

Will give more information once we've determined you can do it. Please post prior work as well.

Thanks.

Unsure if [Motusora](#) can do this, but if he can he's definitely your best option!

i don't usually do pixel arts, but yes i can do this one

here's a quick pixel art i did on my previous logo made for client

Spoiler [\(Click to View\)](#)

hey mate.

i actually commissioned you earlier by sending you this exact image as an example ?. while the logo you made for me was pretty good, i'm hoping to get a definitive pixel art version made rather than hand drawn.

your artwork is definitely great though! thanks.
