Thread: [HYPEDROP ACCOUNTS - LEVEL 58 AND LEVEL 51 \[TIER 6 AFFILIATE\]- PASSIVE INCOME DAILY](#)

Vlad Pop - March 27, 2022, 3:12 pm

Decided to give up on gambling so I decided to sell my gambling accounts.

This is a good opportunity for those of you who want to earn passive income doing nothing. The minimum daily amount per account is 0.87€ but often you get tickets 8-9 € from level 50 case, I personally won the 28 nintendo case a couple of times from level 40 case so the average monthly earnings with this account can be from 36€ to 2k+

You get free cases to open every 24h where you can win some really nice stuff (no deposit is required). I make on average 100 Euro per month with each account without any crazy hits (just from the free boxes). I will list what you can win below

First acc is level 58 halfway to level 59. In total I wagered 79 000€ in this account.

2nd Acc is level 51 with Tier 6 Referral unlocked (has 21500 € deposits) and currently earns 3.6% commission on each deposit.

3rd acc - Level 59 8k Top win

Discord - Electus#5428

Level 2 Free case

Level 10 Free Case

Level 20 Free Case

Level 30 Free Case

Level 40 Free Case

I don't think returning the accounts is possible after email and password are changed.

My account has stopped working and inconsistent.

At this point I don't see that OP has delivered. Trying to reach out now, I just want my refund now.

Before this I was locked out of the account due to some weird hackings? hmmm....

When I try to claim the boxes:

Hey what is your discord so I can text you on that

Passi - August 28, 2022, 2:13 pm

Don't buy that they'll just lock your account if they see different IP using them across the world. Been said a few time, even if you win something big you'll need the original account owner ID Card in order to withdraw. If you don't send them they'll lock it up. Or even ban you.
