Thread: [Why did my Everyday Ninja award goal reset?](#)

samsepi01 - March 29, 2022, 3:04 pm

Just checked my award goals and 'Everyday Ninja' seems to be back at 2%. My post history shows I've been consistently checking in daily, today should be 42/100. The 2% points towards it missing the check in on March 27th, but I have a post there.

What gives??

You missed a day to check-in, March 27th check-in you see it's fake

Wow, insightful.

(Mar 29, 2022 03:06 PM)James Wrote: [\[CITE\]](#) Stanley posted two check-in threads on the 27th for some reason. I'm guessing it might have something to do with that.

Weird, I even commented in [this thread](#) that was closed by Stanley like normal, but I guess I didn't comment in the [other one](#). But that one didn't even end up getting locked with the final comment from Stanley saying who won bytes.

Hoping maybe Omni or Staff can override it, I thought I checked in :(

Yeah I saw that bug on the 27th and for safe keeping I just posted on both... I wish you had :P

I posted on both threads thinking I could get %2 for one day, but I ended up resetting my Everyday Ninja award goal, and then posted on the second thread and it reset it back to where it was supposed to be.

yeah there was a double thread check in, mine got reset but I think I might have just forgotten to post.

Ah shit, thanks for telling me. Had to see this thread. :(

I'll try to fix it this morning.

EDIT: I believe a simple thread merge should fix it. Can members check that were "reset" if indeed it's fixed or not?

Just checked, my award goal is back to 43%. Thanks for saving the day!

Hopefully next time if Stanley bugs and creates 2 threads (or misses a thread) that I'm informed by someone.

peldon - March 30, 2022, 12:58 pm

Just checked too, my award goal is back ! Thanks !

hotwheels52 - March 30, 2022, 2:22 pm

I was worried when I saw mine reset. Glad this got fixed.

If Stanley bugged out maybe that's why I can't seem to win any eggs right now?

That Ninja award was SO hard to get. lol

I would've messaged too but didn't want to overload.

Anyways glad it was resolved

I get so many of those, if it's important best to just PM or Convo me directly. I get a lot of mentions and something inside the DCI thread isn't gonna get me to click.
