Let's see what's the average age on HF

Share with us how old are you? Also, you can add at what age did you find out about HF! ???

I'll go first! I am 26 years old and I found out about HF many years ago but made my profile and started using it recently!

Got it! You seem like an HQ member to me based on your activity so far. Keep it up!

im old, i think average is about 15-21

Komodo - April 1, 2022, 6:23 am

Older than everyone here so far.

Waiting for [mention=5037217] to answer.

Disease - April 1, 2022, 6:35 am

I am 33 years old. Been here since I was 21. Strangely, I felt like I was one of the older people here more back in 2010-2012, in my early 20s, than I do now. I think the average age here has increased fairly significantly over the years. Partly because of the existing members just getting older. But mainly because I don't think as many young people are using forums like we used to.

Ahhh 28, so full of fight. So young, such a young buck.

That'll all change when you get old and turn 29 like me.

Seeing some people have been on the forum since 2011 or earlier makes me think that this place is addictive. Since I registered, I haven't stopped chatting, posting, and lurking for some information! ???

You don't call a baby 0 years old, you use months for that age.

Joe is likely 6 months old in HF world.

I like that I see more and more Old School members on the forum!

There is no one under the age of 20, so far ... I am surprised! Maybe someone will show up soon!
