Dark humor is the only thing that gets me through the day.

We got real dark in the Army. Unrepeatable dark.

skull - April 1, 2022, 12:34 pm

I am the master of dark humor.

My husband quite hates it, makes it more fun.

Me as a dad sitting on the bench at the playground.

Stranger: Which one is yours?

Me: Haven't chosen yet.

I reread this 7 times because I'm an idiot and read pyramid. Solid joke.

Well in that setting I could imagine that you'd have to have a dark sense of humor to help you survive psychologically in that environment.

Hahaha, maybe I could have written it better.

My sentences in English might not be perfect.

I also used to say this one a lot before I got my son.

Her: You want kids?

Me: Yes, but I can never catch them.

Me and my friends used to do the dead-baby jokes when we was younger and stoned.

My girlfriend asked me what a pedophile is, I told her that's a pretty advanced word for a 6-year-old.

It depends on the type of humour. Kys jokes aren't very funny anymore after you've walked up to

your dead friends grieving mother and told them you wish you could've done more.

You're welcome?

And it will even be relevant to the theme of the end of the world?

What happens when an asteroid hits the ground? With the help of an ordinary frog and a large hammer, we can run a simulation that will prove that it will be very bad ...
