Thread: [New Movie Starring Will Smith and Chris Rock](#)

Just a concept.

I'd love to see a movie starring both Smith and Rock. Where Chris Rock is the good guy and Will Smith is the bad guy and in the end Chris Rock gets to smack Will Smith in the face. Story don't have to be that complex. Maybe Will Smith is some crazy drug lord or even better an international sex trafficker. And Chris Rock is some FBI agent trying to track him down because his own daughter was caught up in the sex ring and wound up dead. So Rock is trying to take down Smith. In the end Rock gets Smith but not before words are exchange and Rock plants a huge face smack on Smith. A real one too that's not Hollywood magic. Will Smith then apologizes to Rock for what he's done.

\$500m movie guaranteed!!!

I would watch that 100%. Sounds like a taken movie but with Chris rock instead of Liam Neeson

Please not. Imagine how crazy the people will go who believe they staged the fight. That'd completely ruin the movie for me.

inb4 this becomes a "Netflix Special." ?

Definitely would rack in the big bucks with consumerist America.
