Thread: [So long that I haven't Ewhored... Some help ?](#)

Nininsane - April 7, 2022, 10:20 am

Hi there ! ?

I started Ewhoring on 2014 thanks to a friend who introduced me into it. ?
It worked really well, easily and fast. I earned so much money without efforts.

But now I want to try again, and I'm totally lost. I saw that KiK isn't working currently as before.

A lot of people talk about the snapchat method. But I do not know how to do fake live pics on snapchat.

I do not know if Paypal is still easy as before for scamming those w*nkers.

Overall I'm really lost. I'd love to be helped by someone, even more if u add me on discord !

If someone can help me to get back in this bath, I'll appreciate that.

(Sorry in advance about my english, not good, and for being a newbie on this forum ?)

Peace ?

Most people use Snapchat now as their platform. For sending fake live snap, you can use some free apps out there. There are paid apps like mine too. You can still use PayPal but you can also use cashapp, venmo, crypto, gift cards as payment method. There are holders too but you need to watch out, make sure you only use a legit and trusted holder. Search around here and you'll get some idea on how things work now. have a great day!

There's apps that still work to send fake lives on KIK, but traffic is a mess because there's a lot of bots with fake accounts used to spread ads.

It has a way bigger population of real users. KIK only somewhat revived after rumors of it shutting down.

Hello [Nininsane](#)

Snapchat is a very common platform for e-Whorring, and also super useful to start off with. You are more than able to make a decent amount of money there every day. If you have Social Engineering skills.

I would recommend you find a mentor that for a fee can help you get started.

I can definitely mentor you.

Let's use a middleman, as we both are pretty new users without a lot of trusts.

I understand.

There should be some verified or at least trusted middleman on the forum, they can hold the funds until your mentorship have been completed and you are happy with what I deliver.

When that happens, they will release the funds for me.

I'll write you when I wake up in the morning.

There are multiple ways of receiving payments.

Giftcards, actual gifts, payment, apple pay, google pay, there are a lot of options.
