Hello [azefazecazed](#)

\$5.000 seems like a pretty high payment for the following service.

I am a python programmer myself, and I could probably do this way cheaper with a middleman.

We can use a middlemen, I just need it fast and working perfectly.

I'll do this for you way cheaper.

Let me know what the guy above me is offering, I'll match it and make it even cheaper.

Middleman will be necessary.
