Thread: [Edge's Coding Service | We handle all of your coding needs | Websites | Desktop Apps](#)

Edge - April 7, 2022, 7:34 pm

I will not do anything illegal or blackhat

My Discord is linked to my profile. The spelling is Quote:_edge_

Welcome to my coding service!

If you find yourself needing help with a project, I'm your guy!

Services

Front-End Web Development

Back-End Web Development

API Integration and Development

Desktop Apps

Web Scrapers

Social Media Bots

Anything not listed here can still be discussed. If I'm not able to help you, I may be able to recommend someone to you.

I have experience in building many different types of projects. I price my work by project instead of hourly.

That way the price is known from the start and doesn't change.

Current Payments Accepted: BTC

TOS

No refunds unless stated otherwise in the contract.

No blackhat or illegal projects. Its stated everywhere on this thread as well as on my profile. I will not do it. Don't ask.

I will provide support for projects within reason and as long as its within the scope of the project.

All deals require a contract on-site. We can discuss off-site but deals will be recorded with a contract.

No vouch copies obviously due to the nature of the service.

I can deny doing any work or service to anyone for any reason. Its nothing personal.

If you've added me and I haven't added you back or replied, send me a message here.

I will not do anything illegal or blackhat

My Discord is linked to my profile. The spelling is Quote:_edge_

ALWAYS CONFIRM YOU'RE TALKING TO ME ON SITE. Do not send payments unless you've accepted a contract by me on-site and have confirmed you're speaking to the right person.

Known this user for a decent while and they have grown a lot as a dev! Really good at scrapping and similar projects. I regularly talk to them and get some useful advice! Wouldn't hesitate to work with them if I needed a scrapper!

Zion Williamson - October 5, 2022, 12:49 pm

Have had two projects done by Edge within the span of a week. Let me just say, his prices are incredibly reasonable for the work he does. Answers fast, gets the job done fast, gives a ton of support, and the program runs amazingly! Couldn't have asked for anything better and that's a fact. This guy is simply the best!!!! Thank you so much.

What I classify as a very difficult request for a custom program, he did it within 2 days. Unbelievable.

Hi, I'm Sticky Bot. The owner of this thread has purchased a Paid Sticky. Hack Forums does not get involved in deals or deal disputes. We do not vouch for the product or the service offered by members. Please note that all deals are at your own risk. The sticky will expire on 10-13-2022. If you or a loved one are interested in buying a sticky please visit this page: [Buy Sticky](#). For more information about Paid Stickies you can read our [Help Doc](#).

Zion Williamson - October 17, 2022, 8:37 am

I know I keep vouching but I've needed a specific program made for multiple different reasons, each with its own complexity and Edge always delivers. Literally feels amazing to have this good of a connection in the tech field. I feel like he can do any task involving programming that I need. Pick this guy if you need any programming/tech work done. Thanks edge!

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

Fair enough and thank you for being honest and not trying to take advantage!

I've had some instances in the past where people said they could do XYZ but could barely reach X but still wanted my money.

Good luck with sales and your service, I'll keep you in mind if any other projects arise.

I will be taking on new clients again starting Thursday. If you've reached out for something and I've passed on your project due to lack of time, I welcome you to reach out again. If I declined your project due to the nature of project, the reply will be the same. I do not and never will do anything blackhat.

New website will be up shortly to get quotes on your projects, better display project progress, and for clients to submit issue tickets. If you're an active client of mine or do regular work with me, I will be reaching out to you shortly about this.

The best place to reach me at all times is Discord:edge
I check HF when I get home as well.

Will begin accepting new clients again starting August 1st. If you have a project or inquiry, reach out here or on Discord.

I'm going to be transitioning to focus more on local clients as I'm trying to build my local brand. I may be less available online for new projects starting in a couple of months.
