Thread: [\\$10 Landing Pages - Any Niche](#)

W00T - April 8, 2022, 10:16 am

Hello HF.

I am a full-stack developer and make a living off it.
However - I would like to have some more cryptocurrency.

Therefore I will make you a landing page for any niche, for any Crypto Currency.

With trusted users, I am more than willing to go first.
Otherwise, I prefer to use a middleman.

Checked it and replied.
Thank you.

Hi,

Do you have some samples maybe?

Thanks

Unfortunately not, but as the thread says I am willing to use a middleman.
In case you aren't getting what you purchased, I wont accept the money.

I would like to see some examples as well. I don't like paying for webwork but \$10 for a landing page catches my interest.
Let me know if you have anything I could look at.

Good luck with sales.

Hello.

It's not that I do not have any examples, it's more that it is made in my real-life company, and I do not feel like mixing the work I do here together with the work I do in real life.

However - I am willing to have the funds after delivery, and you can pay only if you are happy with the final product.

I'm confident I can make what you want.

What's the point of buying cryptocurrency when I want to earn it by delivering work?
