DDoS Protected Game Servers

[ShockGames](#) was founded with the goal of providing premium quality hardware at an affordable price to users all over the world. We are constantly working on ways to improve the usability of our website and server panels.

About ShockGames

ShockGames was inspired by a frustrating search for gaming-focused Virtual Private Servers. It became clear quickly why gaming communities have long advised against using a VPS for game servers: the ones available were either underpowered, overpriced, or both. During our research, we discovered that the majority of VPS providers use older enterprise-grade processors that are not suitable for gaming. The providers who did have fast hardware were horrendously overpriced. ShockGames was created to demonstrate that you can have it all: fast, dedicated hardware at a reasonable price.

Current Promotions

We are offering a 10% discount on your first payment for both Game Hosting Servers and Game VPS

Use promotional code "WELCOME10" at checkout. We accept PayPal and all major credit/debit cards.

Why Us?

? Our hosting is tailored specifically for gamers, with premium hosting and support among our top priorities. ShockGames can help you improve your gaming experience today!

? We don't settle anything less than super fast, and we mean it. To ensure low latency and optimal running speeds, our infrastructure is powered by high-end CPUs and NVMe storage.

? Downtime is not something to be concerned about with us; we guarantee 99.99% uptime and, if your server does go down, we offer credit!

? With operators from all over the world, our friendly support team is here to help. We pay close attention to detail and are happy to assist you with any problems you may encounter while hosting a server.

Pricing Plans

Plan prices for game hosting start at \$4.50 per month. For the time being, we only support GTA FiveM, but we plan to expand our supported games in the coming days/weeks.

Game VPS are available for as little as \$10 per month.

Datacenter Locations

Our deluxe servers are hosted in Singapore. We are continuously working on expanding our server locations.

Payment Methods

We accept PayPal and all major credit/debit cards.
