Thread: [\[Private Method - \\$500+ a month\] Profit Guaranteed - Make Money with a Pen & Paper](#)

Hi all! I know I'm new (well I used to frequent HF a lot back in 2012 ?), but I wanted to contribute with a private method I came across this past year that I've seen success from.

Requirements:

Must be a US or Canadian Resident

Pen, Envelopes, and Stamps (stamps will be the only costly part of this method)

\* A little bit of patience is involved

That's it! This can be scaled depending on how much time you want to dedicate to this method (personally I've seen users in groups pulling \$1500-\$2000 a month).

Because this is such a simple method, I'm selling this for a flat price of \$25. I accept BTC/ETH/LTC for payments.

Product will be delivered via Discord as a text file.
