Are you willing to give a discounted vouch on the windscribe?

Good luck with sales. How can you upgrade Mullvad for only 40 USD when it costs 60 USD though? There is NO way to get it cheaper since they don't offer localized pricing or other deals?

From another forum but I can vouch for this Radiant offers many other products apart from this.

Laughing Man - May 19, 2022, 8:21 am

I'd be willing to take a vouch copy so you have a review from a member here.

Beanch - August 21, 2022, 7:45 am

So the Mullvad lifetime account upgrade works with my own account id?

Or will you give me a new account id every time one is expired?

Beanch - August 25, 2022, 12:13 am

Hey, i saw the Duolingo offer on your page. Do you also sell this one here?

If so, is there also a lifetime upgrade available?

This.

Also what is the different between \$12 and \$40 accounts? Is one shared and one private?

TonA - September 2, 2022, 8:27 pm

Also wondering what the difference is between between the \$12 and \$40 accounts

EDIT: Seems like \$40 is for your own account, \$12 is for a new account

Black Kodak - September 2, 2022, 8:41 pm

Hmm, interested in Mullvad if you can still do this OP. Looks like OP hasn't been online for 10 days or so. If you come back and see this, PM me. I am very interested.

I got it like this:

The 40\$ account is for your personal account. The 12\$ are for one account, that you need to share with two other people.

Thought sharing would get picked up on pretty easily, but I guess not? I'm guessing the account is

shared with two other people in the same country or region, then.

They seem to offer "lifetime" warranty regardless so I guess OP will just give you another one when you get banned, I guess? Makes sense that the pricing is cheap, then.

Yeah could be. I'm interested in the private one, but the OP seems to be on vacation or something because he was not online the last 12 days...

Also the warranty only lasts as long as his method works (as I got it). Could be a long time to go, but could also be fast over. ?

Says in the discord "Each Upgrade Sold Comes with Lifetime Warranty + A minimum 6months guarantee or refund" so might be alright for 6 months. Says he's been away cause he was sick, but he's back now.

Would have to double-check with him before buying to make sure. Hopefully he comes back here and clarifies things for us all

nelz - September 6, 2022, 9:29 am

Hmm, upon googling, seller actually has a good reputation and pretty prominent on other forums. Guess he doesn't use HF much. Someone needs to tell him he has potential customers on here lol. \$40 for private lifetime mullvad is pretty good tbh.

e_coil - September 7, 2022, 10:37 pm

I just checked OP's service on another forum, the lifetime warranty of this service means lifetime of the shop.

You are guaranteed 6 months of working service. If it stops after that, and the seller deemed it was because his service has been patched and he can no longer fix it, you will no longer receive an update/refund.

Hoping some reputable HF member can provide a vouch review. In any case, GLWS op!

Picked up a few accounts from Radiant, working perfectly.

TonA - October 30, 2022, 8:45 pm

Ended up buying private mullvad + shared windscribe. No problem with the mullvad, you just have to contact Radiant every so often (30 days maybe). Windscribe breaks pretty often though

Wdym 'breaks pretty often'? Does the connection fail or you get warnings due to sharing logins? I mean there's really no way to stop the other shared users from abusing and multiple logins

It means the account goes bye bye and you contact Radiant for a new one. Probably depends what other people you're being lumped in with. Private Mullvad is much more stable and doesn't randomly die, you just have to contact when 30 day countdown is up (or sometimes longer).

Great service regardless, but I really wish private Windscribe was offered as well as I'd happily buy that (alongside the Mullvad).
