if the person has a droid they dont see the crop. but if they have an iphone they do

Meow - April 13, 2022, 10:49 am

Buy a 3rd party modded app like Snapbytes

Neksi - April 13, 2022, 12:40 pm

When i send using my camera to my iphone i get the same black bars as if i used OVF editor

occexe - April 13, 2022, 4:40 pm

Do you guys use a second phone for all this?

AZA-2000 - April 14, 2022, 10:05 am

explain this more?? your camera on what?? an android phone? so droid to iphone gets black bars no matter what?

mindiw - April 14, 2022, 10:31 am

Prequel for iOS, buy app from Snapbytes for android/iOS, if you are broke just use ovf editor
