Thread: [Active/Passive Income Ideas](#)

**Options Trading** - April 13, 2022, 2:40 pm

What methods/websites do you use to generate passive/active income? I have been trying to use UserTesting as a side hustle but I never get any tests available to me.. The only one that has worked for me so far is this "Surveys on the go" app. However a 20 minute survey will only earn me roughly \$1-2. What are your ideas/methods that actually work? Is my UserTesting just broken?

Its interesting, your name is "Options Trading". Isn't that sufficient?

I make a full time income from selling options. usually close them or let them expire after a month so its like monthly income

Another thing is just start businesses. That also brings me other sources of income.

Obviously these are easier said than done. 90% of both traders/businesses fail and that wont be different from the HF crowd. Hell even 90% of my businesses/trading has failed, but that 10% of success makes it all worth it.

Unfortunately I lost all my gains several months ago due to some plays I made with options. I primarily deal with index funds now instead.

I think survey sites are not worthing because you can make only peanuts money .I like for passive income to use youtube as you post consistently you can go viral ,go a lot of views and just with 1 video you can make a lot of money ,you just need to post as much as you can be consistent ,learn new things and you will be succesful .The problem its that many people think that you need to show your face on camera to be succesful amd its not true ,i know many people who make tons of money with simple videos
