What's the best payment option in the EU?

losesi8617 - April 16, 2022, 9:06 am

Paypal and Skrill in my opinion

Best? Crypto.

But low ammount of simps use crypto, in that case:

For EU Paypal.

US Cash App

UK Cash App

But you cant just make them and start receiving payments, you could do it in 2020 and before, in 2022 after a lot of people started abusing it, some precautions must be made, and you cant keep large ammounts of money at them.

I'm sure it's going to be suspicious for buyers.
I'll try CashApp, any suggestion creating an account?
