I don't know man, shorting half billion out of a company just for the profit even though you are the richest man on earth sounds like a pretty asshole move.

I don't know if you're suggesting that he tweets nonsense.

But I rather follow him on Twitter than a company that uses a team for their social media presence or a robot response system.

I think that everyone, especially American's aren't used to people speaking their mind since it's pretty common there to sue someone for the things they say. Oh, and America's newest invention, cancel culture.

ThinWhiteDuke - April 25, 2022, 6:01 am

Elon can do what he likes and the Twitter board have got to just sit there and take it like the little

bitch boys they are

ghostboy - April 25, 2022, 3:57 pm

Elon stay throwing shade at other billionaires and politicians even though he's involved in both lmao. Still a good guy I believe.
