Thread: [Hacking the email address linked to Instagram](#)

the rookie hacker - April 24, 2022, 5:44 am

Code Can you help me to find out how I can find out the email address and phone number connected to the Instagram account

CyberCanary - April 24, 2022, 12:40 pm

Try account recovery and see if you can get a peek at the listed email for the account. Otherwise you'd have to socially engineer your way in there or bruteforce it. You could always try to phish the email by direct message with a fake giveaway or some BS business enquiry.

i looked at the account recovery section, but the email address seems to be closed, only the beginning and end appear

if you can help me, I can give you detailed information from the telegram, sir, I need help if you can send me your telegram, we can correspond from there

tabakmantsje - April 29, 2022, 1:11 pm

I prefer you make a contract or something like that.
