Thread: Helium Spoofing

gestrudes - *April 25, 2022, 4:08 pm*

Hi,

Anyone knows some tutorial or Yotube channel on how to spoof helium with 2 or more miners in a 150- 200m place.
To get maximum rewards.

Thanks

Oof as a helium owner, I hope you fail in your quest.

There is already another thread about this.

This isn´t an hackers forum??
I got miners diversified in some places, just wonder how some people are doing, and maybe test only in 2 in my house..
I think will not hurt the blockchain like a lot of cluster we see in helium.explorer!!

Where? I can't find it.
Thanks
