Thread: [\[RANT\] Stupid people and stupid lawsuits](#)

skull - April 26, 2022, 12:15 am

WARNING: This is a rant. I just need to get it out cause I am so sick of rich people thinking they control the world.

If you are homophobic or transphobic, please stay out of this thread - I am emotional

There is this rich fuck, who started a bunch of lawsuits against people like me, families including transgender members that have kids.

As most of you already know, I am a guy married to a trans-man, meaning a former woman. My husband is also the real mother of our son and we have a pretty normal life.

Then some rich dude started a bunch of these lawsuits against families like mine saying that it's harmful to the kids being in these abnormal family situations, and we are being accused of child abuse.

Not only us, but we have also seen countless others in this situation.

I have read my fair share of the law, and I know that people cannot just pull off a lawsuit like that in my country, it requires authority, we are not the US where anyone can suit anyone. Anyhow he got the money and is somehow still pulling it off.

My lawyer says it's a 100% guaranteed win, it may just take a while.

The guy is not allowed to run this lawsuit, there is no way he can legally hold it up, these cases are only handled by the government.

We believe he tries to just scare people that do not have the money, time, or energy to defend themselves and to make a big scare for others.

So I gathered 14 other families, and I paid my lawyer to fight this together with us.

I have never been this broke in my life, yet my lawyer says that that rich dude will have to pay it all back +interests when this is over.

So you guys might not see me as active as usual the next period of time.

If what you're saying is that someone is calling you unfit as parents simply because you're trans or queer, that is sincerely fucked up and wrong in every way.

Assuming you are in a rational country with rational judges I would expect things to go your way. I don't know you personally but you seem like good people skull. I don't believe anyone should have to go through what you are without a damn good reason. Godspeed

So you guys might not see me as active as usual the next period of time. I hope you win this one. You've been helping others and my prayers are with you that's all I can say. I'm not against any gender or any religion. Infact I can say that a trans can handle a kid much better than a normal women. It's not easy life but in the end it's life. You need to face these rich fuggs and show them the real deal.

Excellentum - April 26, 2022, 12:28 am

I tend to believe your lawyer is right. It's a 100% win, brother. I am sick of people messing with others' lives. Fuck it! Enjoy your life! Wish you and your family all the best! It will pass soon!

DemonAsylum - April 26, 2022, 12:53 am

What an absolutely fucked up situation.. Actually disgusting. Sorry that you're having to go through this and I'm hoping you not only win as your lawyer expects, but also that it happens sooner rather than later. Keep your head up and know that you have the support of many people on here. Wishing you the best ?

As a married gay man myself my heart is especially hurting for you and your family. My husband and I are sending good vibes, love, and understanding for you all! ?

You will win this in court, and you can bet on it! But that isn't what's important here.
This stupid overly bored fart is trying to steal away something that is much more important than the money (which you'll get back) - Your precious time with your family.
Every second you spend thinking about this whole saga, thus empty yourself emotionally, is a WASTE OF YOUR TIME.
Time isn't something you'll be able to get back.
Do you utmost to ignore the existence of this jackass. That's how you REALLY beat him.
Your constant good doings are your true lawyers in the spiritual and emotional layers. He can not win.
Cheer up. He's just a fly on the wall.

John Hawkins - April 26, 2022, 8:47 am

I really hope you and the other families win this as quickly as possible... this is sad and this just demonstrates that there are people with a lot of anger and without something good to do with their time and money. The world we got...

I bet that your child is way happier than most of the childs around the world, and that's what really counts.

Komodo - April 26, 2022, 11:41 am

Bunch of idiots that are living such a sad and miserable life they feel the need to attempt to bring others down with them.

You're a great and genuine person, I know you'll end up on top at the end of this.
If you need anything at all feel free to reach out to me anytime, as always.

Say hello to the family for me.

People are stupid, you'll win, hopefully it doesn't take an extreme amount of time. So many court cases are open and shut but the system loves wasting time.

7777777 - April 27, 2022, 8:49 am

Thats pretty messed up and sad some people are so heartless. I really hope you get your life back soon!

Omniscient - April 27, 2022, 9:59 am

Well, first thing is that you might have just opened a door to your identity. Can't be too many people in your situation. Just saying a few of those details make it possible. Maybe you don't give a shit.

I do hope you win. Suggest you let your lawyer do their thing and try to chill about it. Technically out of your hands as far as I can see.

As for judgements on what's harmful to your kids. IMHO, they are YOUR KIDS and I ain't got no right to say shit. Just like you can't say shit about how I raise my kids. Legally speaking unless CPS (Child Protective Services) investigates and finds harm, then you're good. Some rich jackass butting his nose into your home is out of line.
