(May 8, 2022 07:26 AM)y.flicka Wrote: [\[CITE\]](#) r3byte has done excellent work on my logo. Both in terms of creativity (idea generation) as well as execution.

I provided him with very little guidance on what I was generally looking for and he came up with a simple yet cool looking design.

Furthermore, the way he delivered his work was top-level professionalism. I received not only the logo in different file formats and sizes, but I also received colour schemes, alternative versions, and banners without asking for them.

Would definitely work with r3byte again!

Some examples above show further marketing with logos I have designed, e.g. Websites, 3D renders, flyer designs, app developments & more!
For anything relating to those feel free to message me.

A key member of Motley Crue! I am glad that you have finally opened your doors and started your graphics service here on HF! If you do not know [r3byte](#) designed the userbar, banners, and avatars for Motley Crue. Do not hesitate to do business with this man, he will knock it out of the park every time!

This man is a machine. He completed some work for me which was A1.

Any graphic work I'm unable to find time to complete myself, this man will be my first point of call.

Consider this a vouch for his service.

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
