Thread: [Earn \\$100 - \\$300 Crypto a DAY GUARANTEED => | WHITEHAT | WORLDWIDE | ANNONYMOUSLY |](#)

Praetorian92 - April 28, 2022, 8:02 am

Hello, users of HackForums, I am here to present an amazing opportunity to all of you. I found an amazing method 2 months ago and I have been working on it since then. I have already made over \$6.000USD with this!

The method itself is not that hard and I am sure that everyone who can read this text, can properly execute it.

I will teach you how you can make a minimum of \$2000USD a month GUARANTEED with approximately 2 hours of work per day.

This method is not automated and requires some work. Each execution will take you around 2 hours, therefore, after some time you will get better at it and you will be able to execute it in less than 1 hour. The payout for each execution varies between \$50 and \$250.

By purchasing this, you are not buying only a method, you are joining my team. You are getting my knowledge, connections, and support.

I will be there to work with you and show you step-by-step how to properly execute this and earn really nice money with it.

What we are doing is legal worldwide. It's working worldwide and it's completely anonymous(No KYC). On top of that, no investment is required.

Current Price Per Spot: \$700 USD 5/10 SPOTS LEFT

Overall: 7.5/10

I give this Method a overall rating a 7.5 out of 10 because all though the method is very solid, easy and quick to get running. I work at the pace of orders, not working as much as I want. Which is okay, but I am currently looking for a method that can slave me.

Difficulty: 3/10

This method is not hard at all. I started earning around 1 hour into getting the method. I am not very computer or tech savvy, but I was able to get this method down pretty quickly and maybe work 30 minutes to 1 hour a day with little to no pressure, or obstacles that I have to overcome

Support: 10/10

Praetorian has been very supportive from the start. He has always helped me with any dumb questions I have asked and responds pretty quickly, He has always assured me that I will have money to earn the next day and hasn't been shady at all.

If you guys ever have any questions about this method and wanna get a second input on whether or not you should buy this please feel free to message me on here.

Some deposits I have gotten with maybe an hour of work.

So there's no KYC on this method so why are you not just doing this as many times as you feasibly could? Especially since there is no further investment?

The fact you have even created a thread raises serious doubts of the validity of the method... No KYC, no investment... \$1-300 per time? And you only want \$500?

Like always on this kind of thread you will have some fake review from new account to make it real ...

2nd spot has been sold to a user that registered last month ?, pretty much invalidates his vouch.

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Honestly, I'm not surprised about members scamming other members

I'm surprised to see a Hackforums Veteran replying to a random thread.

OP has trusted members offering to do vouch copies.

None have been officially accepted.

OP has been offered to do a middleman trade where he gets product payment AND all profits. Still hasn't been officially accepted.

(May 6, 2022 01:17 AM)Timo Wrote: [\[CITE\]](#) Are you willing to do this through a MM deal where i pay once i break even?

Only vouches are from piss random new accounts.

OP claims OG trusted members are in the process of getting vouch copies which are nowhere to be seen. None have posted in this thread and what's stopping OP from listing them here?

NONE of the clients that say they will purchase only with a middleman have a contracted completed.

RED FLAG:

Soul_ wants a vouch copy which OP agrees to. Soul_ then purchases the method themselves instead of getting a vouch copy...?

Remember, it's an investment-less method. So it's not like Soul_ put in money for the method and is waiting for ROI.

(Apr 28, 2022 08:02 AM)Praetorian92 Wrote: [\[CITE\]](#) On top of that, no investment is required. If you purchase this method from OP without using a middleman, you deserve to be scammed.

Support has been good, I now know how to setup the method each time I do the 'work'. I have done a contract with OP which we have agreed that I pay upfront \$300 and the rest \$400 from the profits I will be making from now, I have completed 1 work today but it goes into the \$400 I need to pay off.

I am accepting middleman deals. I just can't accept agreements on breaking even with the price of the method. This is work requiring method, you could be slacking all day and not doing shit. I can't wait for you for 3 months to break even.

Haven't seen a single middleman deal in this thread.

You would be doing a deal with [Timo](#) who said they would document everything they do under Marketeers. It's not like they're going to slack for months.

This just reads like a poor excuse.

Why not just give him a free vouch copy then?

I won't be giving anyone a free copy of this, and I won't be working with Timo or you. I have old members who bought my method. They will break even soon and they will share their feedback with payment proofs. Enough is enough.

LeadPal - May 9, 2022, 9:13 pm

I agreed with OP that he would get my revenue until \$300 is paid, the method you will work with OP, I'm about to complete my 2nd order for a total of \$140, I'm debt free, very soon.

I will post results once I start earning for myself, so far things seem legitimate.

I don't have any issue with you buying methods, but you can clearly see how fishy the entire thread seems and why any member would be concerned. Even the site owner replied warning users to be careful. Just like any person caring for the forums, they don't want to see fellow members possibly get duped. The way OP dodges concerns from trusted members requesting more verification and only new accounts making purchases should throw red flags for anyone.

Why do you think only your friends are trusted members on this forum? What did I dodge? QUOTE it please.

Refusing to give my method to someone for free for their "Review" is a red flag? Fuck off.

None of these users are my friends. Most of my friends don't even use HF anymore.

You can't compare members that own groups and drop thousands on the site to a few new accounts nobody knows about. You were offered to have the full price paid and not given away for free, which would have absolved any doubt.

All users posting that they would do the deal through a middleman have yet to confirm a deal, yet all new/unknown accounts are posting vouches. You get offered to do vouches and decline them all saying you have trusted OG members working on vouches but you don't list who they are. Anyone with two functioning brain cells would question this. Other members have exit scammed like this before so of course people are in doubt.

For fuck's sake even Omni posted in this thread cautioning users. If that doesn't tell you why so many members are doubtful of your thread then idk what to tell you.

Hm. I commented on Last Ice's dispute wondering why the method was being sold for \$1000 although it seemed to be public, then Soul messaged me saying I should buy this guy's method instead but it just doesn't seem like there's enough credibility.

You should stay away from this product. It's really seems to be a scam.

I'm not accusing the OP or anyone here

But someone told me that @Praetorian92 has the best money making method so far in HF

But anyway...

Yeah you're goddam right

Always use MM for safety regardless of who the seller is.

raregod - May 14, 2022, 7:46 am

If it weren't for my job fucking up my paycheck I was would have gotten fleeced too. Not going to lie he played it smart. Used a trust worthy middle man and asked for \$400 (for me) upfront and the rest as down payment.

The method was doomed to fail because OP was the only one who who knew how to get orders.

Seems like a well rehearsed exit scam where other members were in on it (why else would they blindly vouch saying it works ?) and I'm sad to see members of this forum affected by this shit. I hope it isn't an exit scam, but the lack of proof and concerning posts say otherwise.

It seems the thing you had to do for OP was legit. The only catch was he was the one who had the buyers and was giving around 3 order a day.

so instead of doing a MM for the whole price he did MM for 60% money was to be released at first profit. So a lot people did this and made profit and reported back that it was legit. It might be legit if you can find the buyers yourself but OP said he wouldn't teach that until after a month.

In the end he did the MM got his \$400 and more from some and then dipped.
