Thread: [Windows 11 Start Menu Icon \[Change\]](#)

thamir - April 29, 2022, 6:05 pm

Guys I have been trying to change the icon of Windows 11 start menu but to no avail. There are some apps that let you change it however you need to align the taskbar to the left not to its default location (middle). Any ideas?

Hi, did you ever get this sorted? It's not something i have heard of before, but it sounds like something i might be interested in.

TIA

<https://github.com/Open-Shell/Open-Shell-Menu>

You can change the StartMenu Icon, as well as the startmenu itself with this application. ?
