Thread: [>>> Ewhoring Mentoring<<< Make Real \\$\\$\\$.](#)

I will mentor you from the beginning, from zero level to start making a decent income online. I will be teaching you social engineering methods, Strategies for selling and MOST important part TRAFFIC (Yes, i will share traffic details with you.)

What all my mentoring will include :

Menu For Selling :

Traffic :

Social Engineering :

Accepting Payments on different Payment methods :

Exchangers where you can exchange your money:

Cashing out the money you have made:

I have 5 years+ of experience in ewhoring and i'm doing it since when we used to ewhore on Kik and Skype then moving to Snapchat.

Does it requires investment :

Free traffic or traffic which costs \$0 to generate will not make you more than \$200/day and traffic which requires little investment (\$50-100) can make you \$1000/day or more and you can live the dream life you want (joking ?).

I accept many payment methods but i cannot discuss it here because how i use them is not allowed to be discussed on hackforums so i'm just sharing proof of my recent AGC. You can go through my recent exchange threads or contact me off hf.

No Refund after you purchase the service.

Price of mentoring : \$200

GLWS!

No because I'll tell how to generate traffic and what to sell and it's guaranteed you'll make money once you start generating traffic, we're not exchanging a currency here where mm should be used and I'm selling no ebook.

I'll send you my current pack and tell you how you can make one of your own. I also have a leaked pack which contains 150 name verifications which I will give to you.

Umm price can be negotiated.

Making steady \$300+ everyday. You can make \$200+ after exchanging all your money into crypto.

Read those open disputes first, i'm making money and you stay broke boy.

Anyways.

totoloka - June 1, 2022, 4:40 am

I probably make more money than you mate, so chill.

I provided some information about your current deals, clearly stated in your profile.

Saying to "Deal with caution" when you have Open (Unresolved) Disputes is seen as a bad thing, now?

Anyway, I was thinking of buying in the future but looks like even a bit of criticism or bad publicity will get you triggered.

Thanks for the negative points. ?
