Thread: [W1nter Security is Recruiting](#)

Ghost Exodus - May 2, 2022, 7:57 pm

W1nterSec is a group dedicated to baiting, profiling and exposing online sexual predators against minors. Therefore, our lifeblood is in support of #OPChildSafety and maintaining an active operation as well as an awareness of the goals of #OPChildSafety. We have been in operation for two years, and seek reliable operators for the following actions:

1. Use online resources and OSINT methods to deanonymize sexual predators, such as the use of public records databases and other public online resources;
2. Social engineer targets that are seeking underage victims;
3. Post on social media to create a public awareness of the threats

Neuromancer really do be a major influence in this scene, huh?

(May 2, 2022 11:16 PM)shatter Wrote: [\[CITE\]](#) so basically a fancy way of saying ewhore
EWhoring and de-anonymizing pedophiles aren't related activities lol Apparently, you didn't read the post.

The name "Wintermute" influenced a lot of online alias. I think it's the idea behind the character that's such an influence. It's an intelligent AI whose sole purpose is to integrate itself with the Neuromancer. It was a badass read.

Masoom - June 1, 2022, 8:43 pm

To me, this doesn't sound like a campaign that would target e-whores.

Quote:W1nterSec is a group dedicated to baiting, profiling and exposing online sexual predators against minors.

What an awesome concept. I'm wishing you and your fellow members the best with this endeavor. You have my support

VNT - June 2, 2022, 7:34 am

Kinda like the concept good luck with recruitment :)

Even if it was such a campaign, it would be of great benefit to our society.

xenosx - June 2, 2022, 7:58 am

I like the idea behind what you stand for especially in the society that we live in today, I know a lot of people that I have met online who are victims of this. I am xenosx and I am from ILF. I wish you luck in your recruitment journey and all of your future endeavor's.
