Thread: [Looking for a professional Web Developer/Shopify Developer](#)

Kavalli † - May 3, 2022, 1:45 pm

Hey guys, as the title says, I'm looking for a professional Web Dev/Shopify Dev. I need someone who's able to actually edit themes, work with liquid, and has a good understanding of HTML, CSS, little bit of Javascript and LIQUID. Basically to customize themes, create sections that aren't able to be made through the customizer.

If you think you got what it takes, shoot me your portfolio and we can work together to make a lot of money.
