Thread: [First Jackpot hit on slots](#)

Praetorian92 - May 3, 2022, 2:52 pm

I had 40 bytes left, I had a strange feeling to go all-in on slots but instead, I decided to make 2 bets. The first bet was empty, the second bet I hit the jackpot. If this is not luck, I don't know what is. ???

Sadly, it's on 20 bytes bet only. I've been doing 100-200 rolls recently but all empty.

Congrats bro! I'm still waiting to hit that myself. I've only been able to hit the triple 7's dozens of times.
