Interesting tool. What COD titles are you supporting with this?

Mostly Warzone/MW2019. I have CW Dark Aether lobbies and have the tool to do it yourself as well. Don't have a tool(aimbot,Walls etc) for CW or VG rn.

Yeah I wish I had more contracts done for it to not look so sketchy. I'm working on it. Slowly. I am new to the forum, but I have had this business going for like 4-5 months now. Finally got my website where I want it and got the Discord pretty good too. Hopefully it'll not look as sketchy soon. (:
