Glad to hear it OP! What kind of whiskey if you don't mind me asking?

Probably going to spark up a joint here myself soon, get some work finished, play around on TryHackMe a bit then watching the latest Batman movie with my pops this evening.

Well on this fine Friday evening, I'll be sparking up a few joints, eating some shrooms and playing some Escape From Tarkov! It's been too long since I've enjoyed a nice cigar.

Today I went out and got some drinks with my father, we visited a local cigar shop and got some cohibas for this weekend. I had quite a few drinks today.

Sounds lit OP!

2 days ago I updated my MacOS and for the 3rd time now it has broken my localhost environment.

Almost done fixing that.
