Thread: [Crypto trading bot INCLUDING Future trading](#)

ParryHooter - May 7, 2022, 2:45 am

Hello guys,

I bought a bot but I do not have access to future trading on binance. Anyone who has might be interested in this.

Average of 50% win.

I bought it for 500\$ for 1 year, still 10 months left I guess. Easy to double your money within 1 month but I dont have futures....

Asked the seller and I can sell it however you need to give me the API so I can send it to them and all communication goes through me as I bought it...

Message me if interested.

Selling for \$300

[contract=tid]Start Contract[/contract]

Matador24 - May 25, 2022, 4:55 pm

50% average doesn't really seem that good though

el zion - May 25, 2022, 5:15 pm

You need above 50% WR and a good RR to make a decent profit or you will need 60-70% WR and i really dont think a "Bot" can do that

Icarus_Development - May 27, 2022, 2:38 am

can you post some pictures?

Al thought the offer OP offers seems shady to me as it lacks any kind of information and proof, this statement is not true.

You can profit with a 10% winrate, heck even with a 1% winrate you could theoretically earn profit.

ParryHooter - May 31, 2022, 2:11 pm

I will post pictures tomorrow. It's nothing shady. It is a bot that only trades BNB with average of at least 50% profit. (150%)

ParryHooter - June 2, 2022, 7:43 am
