Telegram Fake Group Chat Bot

If you have a telegram group that is not very active, this bot is exactly what you need. You simply add accounts to the bot, assign accounts with messages using a very easy to use interface and start the bot. The bot will log into the accounts and send the messages in the specified group, making the group look active.

Features:

Unlimited Accounts: You can add as many accounts you want to the bot

Proxy Support: Bot supports proxies (http\socks5)

Price: \$40

Free 24 hour trial is also available for testing the bot.

Contact Details:

Discord: DemonLord#1049

Telegram: diablo_malvado

Good luck with selling your telegram bots. See you offer some other Telegram bots, looks very promising.

StuffSneak - October 2, 2022, 11:39 pm

Very nice. GLWS

PS. Let me know if you can make a custom bot for me. I need a bot for specific site where when a user posts link, bot should log in to the site, download the necessary files and reupload somewhere and link back to the group.

Interested.

Question: does this support multiple groups at once ?

Markzuberg64 - August 30, 2023, 4:42 am

Just sent you request on tg.

vladamirviktor101 - September 12, 2023, 6:50 pm

i need telegram scrapper/member adder bot

i will pay for this service
