Well I wont be mad if you change your username to SA7OSHI, I was considering changing it to that but I think I like the 3 777s

Don't worry. I won't.

1. I am not upgraded
2. I was asking for Telegram

But I would love to see you as SA7OSHI. That will look cool on your profile.

Newbies can think, wtf, whole work is confused about Nakamoto and he is chilling at HF. ?

Even if you need this username on TG, I won't mind giving to you.

As said previously no it's not OG unfortunately. You can't have numbers in your username and call this OG. (such mine) molly alone would've been an OG.

Thank you for making me understand. Much appreciated.

If you had 1337 - it'd be OG
Telegram.

I was thinking same so I asked here.

Recon72 - May 14, 2022, 10:46 am

I personally don't think that's OG

SoulHarvester - May 14, 2022, 11:20 am

Go for solid words with no numbers and you will be gold.

Yes I am behind few 4 letter usernames. If I get any, I will put that for auction here.
