Thread: [Fake camera on Snapchat](#)

Simple user - May 14, 2022, 6:55 am

I'm having trouble with Snapchat.

When i'm doing ewhoring the customers keep asking me for "live pictures" but i don't know how to fake it. In bluestacks it just appears a black screen. Is there an app on android that I can use as a fake camera?

OVF editor does the magic.

@hey is there a new discord link?

I'm having trouble with my app? Paid for last year but stopped working

Select the picture, make a sticker of the entire picture, then take an actual photo and paste the sticker over it. Most unpatchable, reliable and short term accessible free method there is. Good luck.
