I'll enter with the one I already made. Don't really have the time to make a new one for the contest right now.

Did a slower version

Can you make it green yellow white, also a little slower?
maybe rotate from the BTC logo the ETH logo nd the LTC logo? Could be a easy win lol.

There's no way bro.

Green, White, Yellow
BTC -> ETH -> LTC -> Repeat

Green
BTC -> \$ -> Repeat

Where's the similarities?

I agree with you, it would be too similar.

Eh i disagree 100% but we are all entitled to our opinions.

Also i wanted it to rotate 3 colors .

I respect the fade so you're forgiven.

I just can't see how you could achieve this [Migos](#) whilst also being unique.

The 3 colors might help, I think we'd actually have to see it to determine honestly.

I think @-Scrub@ is more or less trying to protect his brand integrity.

Do you have the other post stars still as well?

Nvm those were money IIRC

A rip off lol. Stop crying. Its litterally a group being formed regarding crypto and crypto development whats not fitting for crypto stars lol.

Yeah I just edited other post, I remember right after I posted.

Was just for others to reference what NOT to do when trying to achieve what he's asking for.

Nobody is ragging on you at all.

He's worried about his post stars being copied and I'm sharing his concern.

The way that you worded it was weird is all, until you said "3 different coins rotating and 3 different colors rotating" it seemed like an easy copy, or "influence".

The 3 different coins, BTC rotating into ETH, then ETH rotating into LTC, each being a different color would look nice.

I just don't see how you could incorporate the green you are asking for.

Green is the color of money so essentially Scrub is copying the color of cash. Im using way different username and wil have shadow and all.

Jesus there is only a few colors to choose from like tf you want me to pick lol/

Apologies for the quality and accuracy, used a third party app to make this mockup otherwise getting 11 GIF's into one image would've been painful.

This is just the flat, I think the 3D would look best.

No shame in it, it's your contest.

Honestly bro, like I said your wording is what made me think it was going to be similar.

After you said "3 different coins, each rotating" I started to understand what you were getting at.
