I was so shocked you could've knocked me over with a feather.

He wasn't questioning my being called it.

Rather, I was questioning his assuming it was called for, before his knowing of the details.

Don't get closed OP. Even though I don't really like you. You really upset me spouting inane bullsh** about brain dead people that you got off Google. You're not a fucking doctor. Doctors told me it was unethical to keep a brain dead person alive because they are dead. You do not know more than them.

Maybe STFU about things like this and about Omni? Lucky Omni is in generous mood.

On the other hand this shit is kind of entertaining. I like drama that doesn't involve me.

Side note.....I do not know why anyone would buy a dildo when vibrators vibrate.

Blockonome - May 20, 2022, 6:22 am

We all know that Cuthbert is a lonely soul, who needs to go on an online forum, in order to tell other people what they are doing wrong, so Cuthberts own sins does not seem so bad to him.

He does not know how to gather a real community of people, so instead of trying to learn how to do that, he just wants to use fake quotes and fake informational sources to try and push his agenda on people, that does not even care about what he says.

Cuthbert is a good punching bag verbally, as he can never actually prove you wrong, because he gets lost in his own arguments, until they no longer make sense.

I just thought the main point of it was, that if you act like a dick ANYWHERE on his huge board, he's going to see it and close your ass. So it's funny to me.

The older I get the more I see multiple sides to everything which is actually kind of annoying. But even though Cuthbert made me upset enough to neg him I'm starting to feel guilty that I haven't expressed the positive side I see to Cuthbert. He just wants to be a Christian and help people and stop people falling into what he sees as traps. And the motherly side of me feels bad for slightly joining in a Cuthbert dogpile.

He really pushed my buttons though saying doctors kill brain dead people who could live. I think Cuthbert was mixing up brain dead with coma because brain dead is dead. The brain is gone. This is a very personal, heart breaking and horrifying topic to me so I was pissed.
