Thread: [\[SELLING METHOD TO MY DISCORD ACCOUNT AND SERVER BANNER\]](#)

LowKal - May 23, 2022, 3:28 am

I've been thinking of selling my method for awhile and finally I am, simple the price is set and stays at \$100

With this method you can get a user banned and the servers they own suspended.

Like I said the price is \$100

I'm selling this as a guide to how to do it and then you'll be able to use this method on as many users as you want.

I'll take a vouch copy.

I'll leave a detailed vouch as well.

May purchase this from you in the future if it works.

Added you on Discord. Look forward to hearing from you.

LowKal gave me a personal call on Discord,
This method is Creative and Definitely Works.

Have not seen this method anywhere else, does require a tiny bit of social engineering but all-in-all a 10 year old could do this method and make it work, so I know you guys can too. Thumbs up on this Method.

Plus, can't beat the one on one Discord call with him explaining and showing how to do it.
