Thread: [Coined | Recruitment open for developers! | Maxed Group | +/- 10 ! | JOIN NOW!](#)

**Migos** - May 23, 2022, 3:13 pm

Coined is a group with a strong belief in Decentralized finance system (DeFi).  
Looking for like minded individuals who are interested in constantly growing their Crypto Portfolio.

We will constantly have a list of coins we notice as potential earners. Tips on how to trade safely, how to step away from KYC requirement exchanges. Did I mention the group projects? All users working on a DeFi Project, let it be a ICO or a NFT drop you will have a stake in each project so once its profitable you can do with your stake as you want.

Why do you want to join Coined : I'm looking for a group of like-minded individuals that I can learn from and share knowledge with.

Do you have NFT or ICO experience? : I've been in the NFT game for over a year and have been loving it ever since.

Which Package are you interested in? : Mainly interested in the NFT/General package

What you do bring to the table? : I bring a year of NFT marketing and development as well as a bit of solidity knowledge. I've studied enough NFT trends to know unique projects and tend to have a keen eye on upcoming ones.

I think many people feel that new groups have to proof themself, since most groups die of quite soon.

But the fact that this group provides you with such great benefits, such as +/-10 rep, that makes it popular on that fact alone, making it harder to die.

And with the dedication from you and some other members, it wont die of that easy.

Why do you want to join Coined : I want to join Coined because the members are all extremely active and the group is growing massively. I do think all members included myself are into digital currency and online money making methods which include making money through NFT's etc.

Do you have NFT or ICO experience? : Basic experience; however, I am still learning more and more each day that goes by on NFT's and where to start.

Which Package are you interested in? : Not sure, just the basic package to start.

What you do bring to the table? : Well, I have a lot of sale skills, social engineering (human manipulation) skills I'd love to bring to the table and teach members for free about. I also would be able to advertise and help market members businesses that they have on Hack Forums elsewhere just to help out people of the group.

**Grindelwald** - May 25, 2022, 4:43 pm

Why do you want to join Coined : I've always wanted to broaden my knowledge of crypto in general. I have a fairly good grasp of it, but I was thinking with this group I would finally be able to get my toes wet and really jump in.

Also, not to lie.

Awesome username color, and +/-10

Do you have NFT or ICO experience? :

I have a fairly basic understanding of it. Looking to delve a bit deeper.

Which Package are you interested in? :  
General/NFT

What you do bring to the table? : I bring an open mind and willingness to learn/share information with others. I also firmly believe in DeFi and support it. I'm a fast learner and would be a very active participant in discussions.

**source** - May 26, 2022, 8:09 pm

Why do you want to join Coined : I am looking to expand my knowledge and or spread the knowledge I have.

Do you have NFT or ICO experience? : I was pretty active in the NFT market last year, I am wanting to get back in.

Which Package are you interested in? : General Package

What you do bring to the table? : 10 Years of crypto experience and knowledge.

**vegetajgd** - May 28, 2022, 11:40 am

Why do you want to join Coined :

This group i feel resonates with me, I have been a crypto Enthusiast since when ETH was just ETH and not ETC & ETH :) Although i have been a long term member but have always been lurking and not much able to contribute much although this forum has helped me alot many a times.

But as i have now settled where i can be online almost all day with my static source of income taking care of bills, i want to dive in to this 100% and just a group of like-minded people really makes the entire journey so much more fun and Of course we earn money along the way this is a given :)

Do you have NFT or ICO experience? : Not directly but i have participated in NFTs and ICO'S before when ETH was just booming and everbody wanted to build on ETH and thats how they used to do it LOL. Not much experience in recent ICO's though as right now its more of IDO or else if you can get in to private sales thats well doesn't happen often.

Which Package are you interested in? : TBH i would want to join the group but if i had to choose i would go to the general one and then see after a month how to go from there.

What you do bring to the table? : I would say my research skills, Experience of having it all (BTCs, XRP's, ETH's,etc) and having to let go of it early to pay off my parents debts. This has made me a

Hard nut to crack and make decisions based on facts, logic and keeping emotions out of the equation. And in IRL i am a social Media Manager, and growing them organically is my field of experience. I do also have worked with paid ads but specifically on FB.

I have experience in CPA, Website development (Wordpress & basic coding). I am above average with video editing and average with photoshop.

And most of all i am really looking to earn money and i know i will.

FYI: the Group Logo's and +/-Rep and other perks which comes along by joining this group are cherry on the cake but for me these are cherries the cake is what i have written above :)

Let me know if you have any more specific questions for me.

Well there is no way of me convincing you about the fact that i would be more active from here on.

But me applying here is a step in that direction. As being in any group in HF is an honour in itself and any group's basic requirement above anything else is that the member has to be active otherwise they get booted for sure (no matter what experience i have no matter what i have done before, it doesn't help me or anybody if i am not active and doing my bit)

I did put a lot of thought into this, before applying for the group, as i understand it is a responsibility and not just a hey i got in, i am super happy about it and just be doing nothing.

But if you still want to, i am anyway willing to put in the effort, you can maybe come back to my application say in a week or a month, and check how much i have been active in that period. As i have my share of disappointments/regrets, and this i am not gonna repeat and miss an opportunity to be a part of a this Group :)

If i am being inactive that would always(\*fingers crossed\*) be planned :P :D

Why do you want to join Coined : I want to join Coined because I am extremely interested in crypto currencies and growing my knowledge in the field. Not only do I want to grow my knowledge I'd like to share everything I do know with like minded individuals.

Do you have NFT or ICO experience? : I do have a small amount of NFT experience although I am trying to gain more knowledge and grow a larger portfolio of NFT's.

Which Package are you interested in? : I was trying to get through General Recruitment.

What you do bring to the table? : I can give knowledge that I do have on crypto currencies for free to all other members in the group as well as try my hardest to teach others outside of the group as well. I believe that we all can grow together into a strong group that helps those who struggle with crypto currencies. I would also do my best to try and help with finding MINT NFT's for members in the group that have potential to rise in price overtime.

Do you have NFT or ICO experience? : I can code solidity, a sample for a token called "Migos" has been sent to Migos via convo including a sample logo for the hypothetical token, and a solidity script that always keep the price equal to \$1, so it would be a stablecoin.

Which Package are you interested in? : General Recruitment

What you do bring to the table? : Millions upon millions of dollars, hookers and cocaine.

**Rahul007rhp** - June 10, 2022, 7:49 am

Why do you want to join Coined : Crypto is really my thing . I spend a lot of time researching about crypto and all the fundamentals utility that they bring to the table. I watch podcast , YouTube live streaming shows & have a group of people to talk to about crypto related upcoming projects. I've been to this crypto related space since 2016 & joined HF in 2011 . At that time no one could image that it would be so big , unluckily i hadn't held my Crypto but since 2016-17 im a long term hodler & a firm believer in crypto.

Do you have NFT or ICO experience? : I have spend a quite reasonable amount of time doing research in various NFT related project . I still try to figure out why people buy it at such insane amount of price. I own few basic NFT not really much worth of \$\$.

Also i did play many play to earn games like thetan arena etc.

Which Package are you interested in? : Would love to get a spot on this dope group in general recruitment

What you do bring to the table? : I can literally talk about all the projects which im aware about and why i think it can make it to the moon obviously it won't be a FA but just a thought process of mine. Also i can share my holding portfolio & give/take suggestions regarding the same. I trade at times not much cause i believe in HODLING but have good insights about trading as well. I was memeber on few Premium groups related to Trading on HF as well.

I would literally be lucky enough to get a spot in this HQ group with like minded people around

Cheers to Coined !

Why do you want to join Coined :

I primarily use this website for crypto and nft discussion. It's what I do for a living and it's what I am primarily interested. I would like to be surrounded with people who have a similar ideology and mindset to myself.

Do you have NFT or ICO experience? :

Yes, I have a very good amount of NFT experience. I have been trading on Solana for just under a year now and am working towards breaking into the Ethereum eco system at the current moment. I would say I am a well seasoned trader with nft's and I have some great connections in the Solana ecosystem.

Which Package are you interested in? :

I'd be interested in becoming a member, not sure how I feel about a group buy in.

What you do bring to the table? :

I am more than willing to provide some of my alpha to the group and my outlook on the market/trading. I do not use the hf marketplace for anything. I will not be selling a product using your userbar. Additionally to crypto I have a background in software engineering.

Why do I want to join Coined

It looks like a very active group full of friendly individuals some of which I am already friends with.

Do you have NFT or ICO experience?

I have very minimal experience in NFTs as I'm not a fan really.

I have the same amount of experience in ICO and trading crypto but am slowly starting to look into it as anything to do with Crypto Currency interests me.

Which Package are you interested in?

Just being a part of the group for now

What you do bring to the table?

I'm active around the forums almost every day, and my banter is on point. I can't say I can bring much else apart from that but will do my best to be active and HQ around the forum, along with doing giveaways and contests/events.

Also making a Minecraft Server for the forum like HackerCraft that will have a Bytes System for players and will be popular, perhaps it could be branded by the group if you would like.

It looks like a very active group full of friendly individuals some of which I am already friends with.

Do you have NFT or ICO experience?

I have very minimal experience in NFTs as I'm not a fan really.

I have the same amount of experience in ICO and trading crypto but am slowly starting to look into it as anything to do with Crypto Currency interests me.

Which Package are you interested in?

Just being a part of the group for now

What you do bring to the table?

I'm active around the forums almost every day, and my banter is on point. I can't say I can bring much else apart from that but will do my best to be active and HQ around the forum, along with doing giveaways and contests/events.

Also making a Minecraft Server for the forum like HackerCraft that will have a Bytes System for players and will be popular, perhaps it could be branded by the group if you would like.

Good day.

Why do you want to join Coined: Mainly networking. I am pursuing some NFT/Web3 projects and would like to have some like-minded individuals to chat and share opinions with.

Do you have NFT or ICO experience?: I have launched a semi-successful NFT project previously and working on a second one as we speak.

Will you participate in group projects?: Sure, that sounds fun!

What you do bring to the table?: I am a Systems Developer/Reverse Engineer by trade and currently sharpening my Web/Web3 skills and can offer project insights/Discounted development services for the group.

Please feel free to reach out If you have additional questions or simply want to have a chat.

**wissmksontini** - July 12, 2022, 6:44 am

Hi!

Why do you want to join Coined : I have always been a lurker kinda but yeah now i would love for that to change , i would also love to have my name in a different font to be noticed better on hf

Do you have NFT or ICO experience? : yeah i have a shitton of art and nft experience , im currently creating my own nft collection that comes with a full fun virtual world (shit takes time to make) ; no ICO experience tho tbh ,

Will you participate in group projects? : 100%, anything of value can only get made by a group ; im currently sooo overwhelmed by jobs and tasks irl but i am for sure willing to help with design/art/nft experience , knowledge and assets when possible

What you do bring to the table? : oh mm .. im not a dick , even if sometimes im not too talkative , as previously mentionned i got a lot of experience in graphics ( 3d , drawing , design , front end) i have knowledge and whenever i have free time (or whenever im compensated for my time) i have no problem at all helping out the group or the members

Cheers! ^^

**Apocryphon** - July 14, 2022, 7:47 am

Why do you want to join Coined : I'm all up for connecting with like minded individuals and share informations

Do you have NFT or ICO experience? : Yeah! I've been running an nft blog / profile for a while related to Solana NFTs, but kinda stopped

Will you participate in group projects? : Yes I will

What you do bring to the table? : All kind of informations about crypto, exchanges that don't require KYC where you can trade freely, interesting projects that pop up in my radar since I'm a member in a VIP group with whales from my country.

**007** - July 15, 2022, 9:00 am

Why do you want to join Coined :

Why do you want to join Coined: I have a fair amount of knowledge dealing with Crypto, but I am always up to learn more and find new ways of leveraging the crypto market to generate more income for not only myself, but others as well. A market where we all earn is a good one.

Do you have NFT or ICO experience?: I, unfortunately, have limited experience with NFT's/ICO's, but this is what I am looking for in hopes to learn the most I can from knowledgeable members.

Will you participate in group projects?: For sure, why wouldn't I?

What you do bring to the table?: I bring 10+ years of Software Engineering experience (Full Stack .NET/Web Development), alongside various other resources to help the community.

**SecureOp** - July 18, 2022, 5:38 pm

Why do you want to join Coined:

- I feel like this group brings a fresh feel to HF - and I'd like to be part of it's journey.

Do you have NFT or ICO experience?

- I work with web3 development heavily in the NFT industry and assist companies to get their paperwork set for operation.

- ICO experience was during the earlier days and currently just DCA my portfolio, however always looking and on the hunt for solid projects.

Will you participate in group projects?

Of course, anything that will be engaging or requires my attention - I'm down.

What you do bring to the table?

I work full-time in the legal crypto sector, mainly in gaming and finance. I believe this market is heavily being developed and regulated at this current stage, so if I can provide any free consults in this area I'm happy to do so. I also have a decent project portfolio which I've been multi-managing on a regular base and would be super interested in sharing my experience or mentoring other

members who'd like to get into the area.

Why do you want to join Coined : I'm very into the crypto market and the DeFi space. This is how I've been making a living and I work with some of the biggest players in this space. I'd rather not publicly say but I will drop names if you really want to know.

Do you have NFT or ICO experience? : Yes, NFTs or ICOs aren't my forte, I'm a fan of DeFi and dApps mostly.

Will you participate in group projects? : Yes

What you do bring to the table? : Knowledge, I know my shit when it comes to what is going on within the space on a technical level. I am talking about or researching crypto every single day. It is literally my job.

**VulnTutorials** - July 20, 2022, 1:59 am

What you do bring to the table? : I like to study and share knowledge. I will be bringing techniques

for NFT and also learn from the group leaders.

**Upgrader** - July 20, 2022, 11:12 am

Why do you want to join Coined?:

Love the userbar/theme and have had plenty of good interactions with members within the group. Not to mention experience in DeFi/crypto in general, I believe I can bring some value to the group and not just utilize my addition as a 'group'/'userbar'.

Do you have NFT or ICO experience?:

Been in and out of NFT markets (SOL & ETH) and plenty of ICO/IDO experience. Always on the cutting edge of new projects that are showing potential.

Will you participate in group projects?:

I would love to participate in group projects and be active within the community in general.

What you do bring to the table?:

As stated above I have plenty of experience in DeFi/crypto, I stay updated and can alert the group of some new finds, participate in group projects and be an active member to rep Coined.

**Tor** - July 22, 2022, 6:36 am

Why do you want to join Coined :

Will you participate in group projects? :

Depending on if the set project interests me.

What do you bring to the table? :Experience in different areas.

A different pov.

Access to HQ devs with experience in almost all coding languages.

So, this should be easy for me, just need some help with what alt-coins to be allowed to trade, and with your groups' expertise I think I can achieve it. I am also open to new ideas and free for all to join as supporters.

Do you have NFT or ICO experience? : Yes, I have NFT experience. Not much but I got a few thousand invested into some! And always one of the first to claim air drops. Always, searching!!

Will you participate in group projects? : Yes, I would love to participate in group projects and help as much as I can with my knowledge.

What you do bring to the table? : Currently, a project of alt-coin trading platform project is what I have to offer. And will do giveaways for the group. And will contribute as much as I can in future.

Thankyou for giving the time to review my application!

Why do you want to join Coined : I have a lot of experience with Crypto. I like to learn new things and teach other people things whenever I get the chance. The same goes with helping others, if I find a good opportunity I share it. Since I also see these things in this group, I would like to join it, to be with people with the same values and interests.

Do you have NFT or ICO experience? : I do not have much experience with NFT's/ICO's, although I have a lot of experience with markets and trading. Have had a couple of NFT's that got a profit on, but I specify in Crypto. I've been day trading and swing trading altcoins and BTC for about 3 years, and I have learned a lot and hoping to be able to share my knowledge. But I'm also hoping to learn more about NFT's/ICO's since they are in the same field as cryptos and are something I would love to learn more about.

Will you participate in group projects? : Yes, I am hoping to be able to contribute as much as I can, as well as be active in general!

What you do bring to the table? : I'm hoping to bring in a new aspect to the group, with trading crypto. Since this too is with the right guidance and right understanding of the market highly profitable. This would be all the basics of both the technical analysis side as well as the money management and risk management side. But also on the more advanced side of trading, for example, different strategies, such as how to use and master Order blocks. I firmly believe that knowledge should be free!

Activity: Have become very active lately, and might not have many posts, but have been posting a

lot in the convos chat.

Will you participate in group projects? :

I would love to participate in the group projects as they will help me gain more experience.

What you do bring to the table? :

I have some web3 projects planned, which I will share with group members. I can also help members with questions regarding solidity and python issues.

Note: I just found this group and I have strong belief that it will somehow contribute a lot in my future projects. Also, I am willing to give back to the community.

Why do you want to join Coined? This seems like a great place for me at the current time in my life. I have more free time than in recent months (or years lol) and I'm starting to dive deeper into the world of crypto investing, especially ICOs and DeFi.

Do you have NFT or ICO experience? Well, as the previous answer kind of spoils, not much. Not going to act like I know a bunch of shit that I don't but I have a solid grasp of investing and crypto in general.

Will you participate in group projects? Of course, isn't that the point of a group?

What you do bring to the table? I'm definitely a jack-of-all-trades-master-of-none type of character.

My interests and knowledge of those interests vary extremely widely, so I can bring a little bit of most things.

Small sample of my random areas of interest where I have some skill/knowledge: Traditional investing

General finance

Marketing

Graphic design

Writing, editing & literature

I'm the type of person who, once they get excited about a project, will really sink their teeth in and go balls to the wall on it. I'm also a voracious and quick learner. I think I'd be a valuable asset to any group! ???

Regardless of the app this group is interesting and I'm excited to see how it plays out. Too many groups just changing hands as cash grabs, something like this has potential to be a mainstay in the community.

Why do you want to join Coined?

Coined seems like an active group especially in the investing side of things. I am not super into trading crypto but it has always piqued my interest. I used Bitcoin and Litecoin as a currency way back in 2011-2012 so it's safe to say I dropped it and never looked back after the failure to hold remotely anything the first time around. [Migos](#) is a great guy and this seems like a cool community. I hope I get the opportunity to hang out with you all.

Do you have NFT or ICO experience?

As stated in the previous question I kind of dropped all of crypto thoughts and stuck with maxing my roth IRA and 401k traditional. That being said I wish I never missed out on the opportunity of NFTs.. I feel terrible at the fact I never entertained it early on when people said money was coming...

Will you participate in group projects?

Of course! I'm a disabled guy and for a hot minute last month I was kicked out of the Warriors as I dealt with health issues and was even entertaining the idea of joining Coined. Alas my health is manageable right now and I would love to expand on what can possibly keep me busy. In short sign me up I'm always game and active. I truly apologize for the first time around [Migos](#)

What you do bring to the table?

This is a great question for me in particular especially after stating that I was out of the game for 10 years. That does not make me a one and done type of deal. I am interested ALWAYS in expanding my portfolio as I want to make a nest egg for my other half before I pass. I will contribute lots of activity (daily) and insight on the topics I know best when presented to me. Mainly I would love to be apart of your community and get to know everyone.

Cheers! Hope to hear from you soon.

Why do you want to join Coined : Because I am experienced in crypto and one of the early users of btc. Way back when its price is still less than a dollar.

Do you have NFT or ICO experience? : Yes

Will you participate in group projects? : Yes, I will participate.

What you do bring to the table? : My experiences, dedication and being active and senior member of HF.

Coined is a group with a strong belief in Decentralized finance system (DeFi).

Looking for like minded individuals who are interested in constantly growing their Crypto Portfolio.

We will constantly have a list of coins we notice as potential earners. Tips on how to trade safely, how to step away from KYC requirement exchanges. Did I mention the group projects? All users working on a DeFi Project, let it be a ICO or a NFT drop you will have a stake in each project so once its profitable you can do with your stake as you want.

Why do you want to join Coined : I'm a part of many different blue-chip NFT communities and have been looking for something related on HF I am apart of the CloneX (verified in dis c), BAYC (also verified) and other NFT blue-chip families. Which I'm more than also willing to verify.

Honestly saw a few of your posts and have just been lingering here for years. Been on this forum for years in the background and didn't have to get deep into the marketplace as i'd expected due to my "luck" with my crypto holdings from 2015 .. Moreso interested in joining the group to see which ventures/projects could be brought together by a possibly similar minded community with the comfort and insight of being actively engaged in HF-type forums while maintaining strong liquidity in web3.0/crypto related projects.

Do you have NFT or ICO experience? : Yeah, quite extensively dating back to around 2015.

Will you participate in group projects? : Always willing to invest/sponsor stuff, I'd be open to "participating".

What you do bring to the table? : I bring a good foundation of knowledge that stems back to the dates of ethereums origin, including being involved in the growth of ERC20 by engaging in the development over the course of its short-lifetime. Also, with my assets being constantly active in the crypto market, I bring good knowledge on the front of general wealth and money "strategies"; stemming from taxes to possible start-up/venture capitalist type investing (as I do angel invest in many web3.0 projects as well.)

I also bring a large array of connections in the crypto world, with access to multiple different "Crypto-celebrities", as well as multiple web3.0 company ceo's.

Why do you want to join Coined: I saw that the group has grown tremendously and its members especially the owner himself is very nice and that is the type of Vibe I am seeking to be around, nothing but positivity So I would definitely love to join this awesome group and share ideas along members.

Do you have NFT or ICO experience? : I do have NFT experience as I have worked with 6ix9ines NFT as a staff and watched it built from the ground up and recently worked with "The Angry PitBulls Club" NFT as a staff and also watched that built from the ground up, as I worked alongside HoodVille(8.2Mil Instagram page) and FunnyHoodVids(18mil) on their Pitbulls NFT Project which sold out in 102 mins and I have proof if you want to see that I was working with them as well and looking forward to working with you guys on your upcoming projects.

Will you participate in group projects? : I will do my best to play a role in the group projects as I am also good with graphic designing so I can contribute to some parts.

What you do bring to the table? : I can bring a wide aspect of knowledge I have gained in marketing and also I am a graphic designer so as stated above so I can throw in a few designs for the team here and there when requested, have a lot of spare time on my hands so I can be able to contribute my time and the skillset I have acquired to the team, looking forward to joining this awesome team and thank you for contributing back to HF.

Refund for what are you seriously implying that if a member needed a refund i would refuse?

Even if he did pay its been over 30 days since i have taken any paid members and the sub fee was monthly.

Would probably be better to wait for a deal dispute before making random assumptions.

Under is the TOS as well. So any violation i can kick a member and dont owe any refund.

Why do you want to join Coined : Looking for a group that shares similar interests

Do you have NFT or ICO experience? : NFT experience yes, a few months of solidity experience + successful sniping projects

Will you participate in group projects? : Yes if skill sets align

What you do bring to the table? : Several years post college experience as a dev + experience with ethers/solidity/contracts/opensea botting

**sleepx** - September 9, 2022, 10:43 pm

Why do you want to join Coined? :

Looking for a group that has relatable interests and Coined definitely stands out from others.

Do you have NFT or ICO experience? :

NFTS: Pretty new to the NFT scene, however I have been a beta user to GameStops new web 3 wallet and that has opened up a whole new perspective to how profitable NFT's can be. The fact that the creator gets a 1-10% fee for every time their creation is traded is unbelievable to me.

ICO's: As for ICO's I first got into bitcoin when it was sitting pretty at \$360 a coin. I was in high school at the time and stupidly thought the money was in being a exchanger rather than stocking up on it myself. This was when Coinbase first launched and a lot of people had not yet heard of them, contrary to today at the time they had the lowest transfer fees and I took that as an opportunity to offer BTC -> USD exchanges on Leak Forums. Fast forward to when it took off I had nothing to show for it besides the money I made with my exchange service. But since then have followed LRC (which will boom trust :'), BTC, and ETH.

Will you participate in group projects? :

Absolutely! Being a lead frontend developer at my current job I thrive in group related projects.

What you do bring to the table? :

I have 4 years of professional experience in frontend development (ReactJS, NodeJS, Redux, HTML, CSS, SASS, Javascript, jquery) so anything needed web dev related I can assist with. As well a strong knowledge in following actionable analytics to predict possible market trends

Look forward to hearing back from you! Even if not accepted, look forward to seeing the progress this group makes and seeing the group projects come to life.

Coined is a group with a strong belief in Decentralized finance system (DeFi).

Looking for like minded individuals who are interested in constantly growing their Crypto Portfolio.

We will constantly have a list of coins we notice as potential earners. Tips on how to trade safely, how to step away from KYC requirement exchanges. Did I mention the group projects? All users working on a DeFi Project, let it be a ICO or a NFT drop you will have a stake in each project so once its profitable you can do with your stake as you want.

Why do you want to join Coined:

Being a member of Coined, shows prestige and I would absolutely love to take a spot in this group. I had a quick talk with Migos a little while ago. I always had the dream of becoming a programmer and since this talk with Migos I decided to take the first step and have been constantly hustling towards my dream and already published a little project which I can't name here. Migos told me only developers will be able to join the group, so that is what I decided to do. I am learning how to code in my free-time and have already made big steps. Being around other people that have the same interests as I do would be my absolute dream.

Do you have NFT or ICO experience? :

I was into NFT's a little while ago. I started with Solana NFT's at the beginning of the year, took some profits after a while and got out a while before the crash happened.

Will you participate in group projects? :

I would absolutely love to! I am still a beginner in coding, I would more of learn from these group projects.

What you do bring to the table? :

My enthusiasm is probably my biggest pro. I will always try to create a good mood among members, even if I am feeling bad myself. I would love to bring my interests in cryptos, coding and

design to the table!

**Sudsy** - October 12, 2022, 3:13 am

I wish there was a group we could use to pump NFTs and sell for profits. If you guys are open to that idea, I'd apply in an instant.

**Komodo** - October 12, 2022, 9:45 pm

Read through the applications and invited a few.  
Keep them coming, PM me with any questions.

**Nate** - October 15, 2022, 10:24 pm

Why do you want to join Coined : I found an increase in activity and I would like to make some new friends in this new era of Hackforums

Do you have NFT or ICO experience? : No

Will you participate in group projects? : if it's something I can do , then yes

What you do bring to the table? : Not sure, just a cool guy looking for friends, and gaming buddies

Thank you for your time, sorry if my app isn't that pretty or detailed. But im genuinely interested

**Pentatonix** - October 16, 2022, 12:57 pm

Why do you want to join Coined: I've been around the block a few times. I've participated in various projects with groups in my time at HF.

Do you have NFT or ICO experience? : NFT experience, plus an avid investor.

Will you participate in group projects? : Yes, if I can be of use to a project.

What you do bring to the table? : Years of experience in Cybersecurity. I have OSCP and CISSP among various other certs.

**DingoOH** - October 28, 2022, 12:39 am

Why do you want to join Coined : New to the forums, never joined any group but would love to.

Do you have NFT or ICO experience? : Yes, I have over 70 pages of NFT sales mainly flipping on Binance and a bit on other platforms also like to invest in HQ projects and used to follow many, right now I am just focusing NFTs.

Will you participate in group projects? : I would love to learn new things, so definitely yes.

What you do bring to the table? : I can do editing work GFX, I am active & willing to help anyone, will definitely contribute however I can & want to learn things myself.

**u8898731** - October 28, 2022, 10:32 pm

Why do you want to join Coined :

I read through the group description and found it very fitting for me, so hopefully I am found worthy of an invitation. Aside from that, I've stepped foot in both web2 and web3 and have lots of experience in both and willing to share my knowledge and grow myself from knowledge of others

Do you have NFT or ICO experience? :

Lots of NFT experience (active since mid 2021), not much ICO experience but have known about crypto since 2014~. Although NFTs are quite dead now, I was able to rack up a large sum of ETH & SOL during the bull, also learned a lot of things along the way. Happy to share my journey in private if ever wondered ?

Currently still investing in DeFi coins as well and have high hopes for DeFi in the future. Also tackling airdrops which I would love sharing to the group as well whenever I hear about them

Will you participate in group projects? :

Absolutely. Love learning new things and taking action on it, especially projects which I have high

interest in

What you do bring to the table? :

I'm still quite active in the NFT scene and am part of a few alpha groups, willing to share knowledge and drops which seem worthy (however, there really aren't many nowadays). I am also willing to teach basic fundamentals to Ecom/Amazon FBA to interested group members looking to get into that scene, considering I'm primarily focused around Ecom/Amazon nowadays but still actively keep track in the NFT/Crypto space. I've been quite active on the forum lately so looking to expand my network and meet new faces with similar interests and hustles

**Icey.** - October 29, 2022, 2:17 am

Why do you want to join Coined :

I feel like this is a group of like minded people and potential partners. I've been developing NFTs and blockchain solution for the past year and gotten a great amount of connections. But i'm always looking for more people to do potential deals and share knowledge with.

Do you have NFT or ICO experience? :

I do not have any personal project but i do have a ton of experience of launching NFTs (smart contracts and websites) and a bit of experience with ICOs.

Will you participate in group projects? :

Yes i will try to participate in all of the group projects where i can. I do however have multiple clients i work with on the regular so might be busy from time to time.

What you do bring to the table? :

I will offer my services as a full-stack developer and smart contract developer to all the people in the group. Also my experience from launching multiple NFT projects and blockchain business.

I have over 10 years of work experience in web development and about a year of making smart contract. Also major connections in the NFT space

**AngryBirds** - October 30, 2022, 2:28 am

Why do you want to join Coined : I would love to learn more about crypto and NFT trading.

Do you have NFT or ICO experience? : Some knowledge but as stated would love to learn more.

Which Package are you interested in? : Any

What you do bring to the table? : Millions upon millions of dollars, hookers and cocaine.

**Oxidation** - November 1, 2022, 2:22 pm

Why do you want to join Coined :

I am a crypto-enthusiast and developer who has done a bit of blockchain things here and there. I think I would be a good asset to the group, and have the opportunity to learn from likeminded individuals. I have a difficult time finding (other) crypto users who are also technically-minded or developers. I would really like to meet some people and hangout with people who are looking to actually BUILD on the ecosystem and possibly create widely used financing applications.

I even have some Ethereum apps that I have already completed or are still in (possibly never ending) development.

Do you have NFT or ICO experience? :

Yes. I have been hired to create basic Solidity contracts with some unique twists. I've created my own projects, and have traded NFTs.

I am also familiar with DeFi. I have been a longtime liquidity provider on Uniswap and Pancake Swap. I also am a staker on Polygon and Ethereum. I'm still holding ICO's from who knows how long ago :D

Will you participate in group projects? :

Yes. That is what I am looking forward to. I am by no means an expert. Although, I have some coding experience. I am pretty comfortable coding in Rust and Javascript. I am not well-versed in Solidity, but have dabbled in it quite a bit never the less.

What you do bring to the table? :

Experience with tokenomics and NFTs. I am very knowledgeable about Ethereum, creating contracts, etc. etc. I am a longterm crypto user who listens to many hours of crypto podcasts per week, so I am always in the loop for sure.

I'm a pretty solid all-around developer. I can do some frontend, some backend, and then link it all together ya know. I also enjoy systems programming quite a bit (hence, the Rustlang crypter product I will be releasing here on HF shortly... which I would consider better than any other crypters available anywhere these days.) Not trying to shill... just to give you an idea of how I view my own coding skills.

I also just know random technical stuff related to the ecosystem that I am always willing to help people with. For instance, I have a BTCPayServer setup etc. etc. I'm always on that type of stuff.

I will go ahead and throw this out there... I am not online 24/7. I have a pretty busy schedule. Some weeks, I am able to be online all week long and get tons of work and progress on my projects. Some weeks... my time is very limited etc. That being said... I'll have time to help with projects or answer questions that anyone may have etc. etc. (I love helping people)

I look forward to hearing a reply to my application. Hopefully I sound like someone who would be a good fit for your group.

Why do you want to join Coined?

I have a fair amount of knowledge about cryptocurrencies and similar technologies. Ready to share knowledge and learn from people with the same mindset as me.

Do you have NFT or ICO experience?

Yes. I participated in a lot of NTF games and loved them. I've always had a massive love for games that let you have a good time while profiting at the same time. Also had a small NFT project in the past.

Will you participate in group projects?

Yeah, of course. I have some free time that I would love to spend on promising projects!

What you do bring to the table?

I bring NTF (games and solid projects) and programming (C#, Python, and Javascript) experience. I'm always down to learn more about any subject that comes up.

Best regards,

Why do you want to join Coined?

I have just recently started to become more active on here after a few years offline. I was a sector leader of one of the first crypto groups on here, Consensus. I have been in the crypto scene for over 10 years and have always been following it closely. As I now have much more time on my hands, I would like to join this group and meet more like-minded individuals. This will also give me more motivation to increase my activity here once again.

Do you have NFT or ICO experience?

Yes! More so ICO than NFT but I have traded and know the technology behind NFTs. I have been a part of many ICOs, including helping a few older coins launch in the past. I hold a lot of BTC, ETH and LTC and many other coins that that I started purchasing in 2013 and not planning to look at until 2030. I also follow crypto prices daily and still buy from time to time.

Will you participate in group projects?

I look forward to participating if I were to join, and curious to see what group projects you guys do.

What you do bring to the table?

I have a lot of experience with software development, marketing, gaming, design, investing, health, blockchain, startups, finance etc. I have been on these types of forums for many years and it would be nice to exchange thoughts with other like minded individuals. I have some interesting ideas for future endeavors that I would love to share with everyone in the group. I also have some cool methods that may interest some people as well as some things to giveaway!

Looking forward to (hopefully) meeting everyone!

Looking to see some badass dev to join us :)

**Hackers** - July 17, 2023, 8:39 am

I may be interested. I've written a couple dozen smart contracts that cover pretty much most use cases and a couple platforms that let users onramp/offramp, deploy custom contracts, and mint NFTs. I am fluent in multiple programming languages including Solidity, JS, Node.js, PHP, Python, and I know enough about a couple others to work in those systems. I also have 15 years of experience with HTML/CSS and the web in general.

I am just looking into groups now, but thinking of applying to join one and your group's description fits what I do pretty well. We work with web3 at my day job with a good number of clients, but we also work with a few internationally recognized brands for e-commerce, headless marketing sites, and other non-web3 projects. I currently own over 20 web domains with about 5 of them being 1-word crypto domains, and I've launched a few defi single-use case sites of my own in addition to the much larger platforms I've architected and led development on at work (I run client mgmt, devops/sys arch and act as Sr Dev on many projects).

I have a desire to join Coined for several reasons:

**NFT and ICO Experience:** I believe that Coined presents an incredible opportunity to collaborate with individuals who share a passion for blockchain technology, NFTs, and ICOs. While my experience in this space may not be extensive, I'm eager to learn from seasoned professionals within the group and contribute my own insights as I continue to expand my knowledge in these areas.

Participation in Group Projects: I am absolutely committed to actively participating in group projects within Coined. Collaboration is a cornerstone of progress in the blockchain and cryptocurrency industry. By working collectively on projects, we can harness our diverse skills and perspectives to create innovative solutions and potentially disruptive technologies.

What I Bring to the Table: While I may not have extensive NFT or ICO experience, I bring a strong foundation in Information Technology and Cybersecurity due to my ongoing pursuit of a master's degree in the field. This educational background equips me with a robust understanding of data security, privacy, and digital technology, which can be invaluable in the context of blockchain and cryptocurrency projects.

I possess excellent research and analytical skills, a keen eye for detail, and a willingness to dive deep into complex technical topics. I'm also a quick learner and a team player, qualities that I believe will complement the diverse skill set of Coined's members.

I'm excited about the potential for growth and collaboration within Coined. I view this group as an exceptional group to learn, contribute, and work alongside like-minded individuals in the evolving world of blockchain technology and digital currencies.

Why do you want to join Coined :

From past 6 years, one thing that I have mostly been fascinated about is Crypto space. I am a full time programmer, marketer and trader. By joining, I would like to learn and contribute more within the community.

Do you have NFT or ICO experience? :

I have bought and sold a lot of NFTs and have participated in ICO. I can provide valuable insight in the group upon joining.

Will you participate in group projects? :

Definitely! Group projects are one way to strengthen knowledge by working with people. I can definitely contribute in the group project.

What you do bring to the table? :

I bring my 6 years of experience in Crypto space. I can write valuable insights and share Trading tips for members. I can also code custom programs, bot based on group project requirements. I also bring my marketing expertise to grow other member's sales offering.

I look forward to joining this awesome group.

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
