I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

any vouch copy? your website looks like a SCAM website.

you have 1 post and asking 400\$ for yearly EXPLOIT subscription or 1,000 lifetime? so SUS.

give out a vouch copy to at least 2 members to see that you're legit.

Because: SILENT EXPLOITS ARE NO LONGER WORKING AS 2022, so your exploits should be macro right? lets see

ice-builder - May 24, 2022, 12:28 pm

Oh so you just said that my whole project is scam because the website design is look like basic ? Really ?? tbh that's the stupidest thing I ever heard , and the software just launched today so I didnt got vouches in hf yet , I got i telegram not here , as soon clients buys you will see ?

DeepWeb - May 24, 2022, 12:54 pm

Give out a couch copy to some trusted members.

We don't need a proof or a video, we need you to give at least 2 vouches to some members here.

[Ph4n70M Phr34K](#) is worth the vouch as well.

If he confirm that the exploit is working, everyone will buy it instantly lol

Since you are confidence of your exploit why don't you just give vouches to at least 2-3 solid persons here, that will make us to trust your product and buy.
Directing people out of HF is not ideal here.

Exactly, he is trying to scam new members here, they will think he's trusted and just head to his website and make a 1,000\$ payment.

Many people like him used this strategy to scam.

Now I'm 90% sure that he's just scamming since he didn't answer my questions or give a vouch copy to anyone.

SILENT EXPLOITS ARE NO LONGER WORKING IN 2022, they're all scams.

Silent Exploits are no longer working since a while.

fuck man i would pay way more than 7.5k for a actual silent exploit access

EDIT: also on private forums ive seen people offer around 3.5m for a 0day that allows silent RCE and the post is really old but still looking so the chances are super slim and will probably not be found or popularly known about and will probably never be seen on public forums like HF
